2013-06-19 A PHP route.php file now replaces the rewrite rules from _htaccess http://sourceforge.net/p/tikiwiki/code/44661/ for Tiki11 so the instructions below can be vastly simplified. We are looking for a volunteer to do this and to commit a default to the main code base.

Clean URLs with Lighttpd

Draft rewrite rules for Tiki on lighttpd. This is a starting point for testing and further development of the rules. Please adapt to your site and test thoroughly that they work and are complete; and use at your own risk.

Add to lighttpd configuration file

```
$HTTP["host"] =~ "(www.)?example.com" { url.rewrite-once += ( # TIKI # Allow all normal files
"^/.*\.(css|gif|jpg|png|php|html|js|htm|shtml|cgi|sql|phtml|txt|ihtml|ico|swf)(\?.*)?$" => "$0", # direct
one-word access - is the / needed? "^(img\/trackers\/.*)" => "$1", "^calendar$" => "/tiki-
calendar.php", "^articles$" => "/tiki-view_articles.php", "^blogs$" => "/tiki-list_blogs.php", # The
following supports up to seven merged calendars; most to least.
"^cal([0-9]+),([0-9]+),([0-9]+),([0-9]+),([0-9]+),([0-9]+),([0-9]+)" => "/tiki-
calendar.php?calIds[]=$1&calIds[]=$2&calIds[]=$3&calIds[]=$4&calIds[]=$5&calIds[]=$6&calIds[]=
$7", "^cal([0-9]+),([0-9]+),([0-9]+),([0-9]+),([0-9]+),([0-9]+)" => "/tiki-
