elFinder

This is an optional file gallery manager for end users included in Tiki which allows managing files in Trackers and File Galleries, as a "Finder view", in the new drop-down box to select views in each file gallery. ElFinder features enhanced drag and drop functionality.

Drag & Drop in Tiki

ElFinder is an open-source file manager for web, written in JavaScript using jQuery UI. As you can see its creation is inspired by simplicity and convenience of Finder program used in Mac OS X operating system.

How to use it

Once the feature "elFinder" is enabled sitewide in the admin panel for file galleries, then you will have the option to choose Finder view in each file gallery:

![Finder view in file gallery]

You will also be able to set the new "Finder view" as the default one per file gallery, through the interface to change the "display properties":

![Edit Gallery: Public documents]

The elFinder view allow you have many contextual actions if you right click with the mouse pointer on a file:
Moreover, you will be able to drag and drop files from one file gallery to others:

And you will be able also to drag some files from your local desktop in your own computer, and drop them inside the file gallery of your choice:
Last, you will be able to display files in a detailed view, sort them by many criteria, like by file types:
