'Log in' Module (login_box)

This Module allows users to login to Tiki. Based on your selections on the Admin: Login page, there may be additional fields on the module:

- If you enable the **Users can register** option, the module will include a link to the Registration form.
- If you enable the **Remind passwords** option, the module will include a link to the I Forgot My Password form.
- If you enable the **Remember me** option, the module will include a Remember Me checkbox.
- If you enable the **HTTPS login** option, the module will include links to use standard or secure login.
- If you enable **OpenID** authentication, the module will include an OpenID field.

After logging in, the module will change to include a Logout button. If you have permissions, the module will also include a field that allows you to "switch" to another user's login.

Tip: If the Login was removed from the left or right column, you can access the login page directly by using:

```plaintext
../tiki-login.php
```

**Usage**

You will see it listed at "Admin > Modules > Assign new module > Module Name (drop down)" (tiki-admin_modules.php).

You can assign this Module to a lateral column (See Module Admin page if needed).

The assigned module (with its default values) looks like this:

![Log In Module](image)

**Parameters**
<table>
<thead>
<tr>
<th>Parameters</th>
<th>Accepted Values</th>
<th>Description</th>
<th>Default</th>
<th>Since</th>
</tr>
</thead>
<tbody>
<tr>
<td>input_size</td>
<td>int</td>
<td>Number of characters for username and password input fields.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>mode</td>
<td></td>
<td>Display mode: module, header or popup. Leave empty for module mode</td>
<td></td>
<td></td>
</tr>
<tr>
<td>show_two_factor_auth</td>
<td></td>
<td>Display two-factor authentication code input.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>register</td>
<td>alpha</td>
<td>Show the register link (y/n)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>forgot</td>
<td>alpha</td>
<td>Show the &quot;I forgot my password&quot; link (y/n)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>remember</td>
<td>alpha</td>
<td>Show the &quot;Remember me&quot; checkbox (y/n)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>show_user_avatar</td>
<td>alpha</td>
<td>Show the user avatar when in popup mode (y/n)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>show_user_name</td>
<td>alpha</td>
<td>Show the user name when in popup mode (y/n)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>groups</td>
<td></td>
<td>If this parameter is empty, all users are offered in the Switch user drop-down. If this parameter is set to a list of user groups, a user is only offered if it is member of at least one of these. A set of groups is specified with their identifiers (integers) separated by pipe characters (&quot;</td>
<td>&quot;&quot;).</td>
<td></td>
</tr>
<tr>
<td>menu_id</td>
<td>int</td>
<td>Menu to use as the dropdown in &quot;popup&quot; mode. Defaults to a built in menu with only &quot;My Account&quot; and &quot;Logout&quot;</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
