

Plugin Dialog

Introduced with [Tiki8](#)

Use this [wiki plugin](#) to create a custom pop-up dialog box using jQuery UI.

Parameters

Create a custom popup dialog box

Introduced in *Tiki 8*.

[Go to the source code](#)

Preferences required: wikiplugin_dialog, feature_jquery_ui

Parameters	Accepted Values	Description	Default	Since
(body of plugin)		text		
<code>width</code>	digits	In pixels.	300	8.0
<code>id</code>	text	Automatically generated if left empty in the form <code>wpdialog_XX</code> (must be unique per page)		8.0
<code>hideAnim</code>	text			8.0
<code>openAction</code>	rawhtml_unsafe	JavaScript to execute when dialog opens.		8.0
<code>showAnim</code>	text			8.0
<code>title</code>	text			8.0
<code>autoOpen</code>	(blank) y n	Open dialog automatically	y	8.0
<code>actions</code>	rawhtml_unsafe <i>separator:</i> ,	JavaScript to perform on first button click.		8.0
<code>buttons</code>	text <i>separator:</i> ,	Button labels separated by commas.	Ok	8.0
<code>modal</code>	(blank) y n	Use modal form	n	8.0
<code>wiki</code>	pagename	Wiki page to use as dialog body		8.0

Example

This code will cause a pop-up dialog box to appear when this page is loaded:

Plugin

```
{DIALOG(title="World hello Dialog!" buttons="Foo,Bar" actions="alert(\"foo clicked\"),alert(\"you cancelled\")" showAnim="blind" hideAnim="explode" autoOpen="y" modal="y" wiki="plugin dialog
```

```
test body" openAction="testDialog(this);")}}Hello World{DIALOG}
```

Example with smarty template

The following code will cause a popup dialog window.

Put this in at the end of your template file:

```
sample.tpl
```

```
{wikiplugin _name="DIALOG" autoOpen="n" id="wpdialog_bobshop_shipping" title="Shipping Costs"
modal="y" wiki="bobshop_shipping"}}{/wikiplugin}
```

Don't forget the underscore "_" before the parameter "_name".

Place this code in your template file at the place you want:

```
sample.tpl
```

```
<p onClick='javascript:${ "#wpdialog_bobshop_shipping" }.dialog( "open" );'>Shipping</p>
```

In this example there must be a wikipage called "bobshop_shipping". Feel free to create it.

More info for params "hideAnim" and "showAdnim"

More option for the show and hide animations can be found [here](#).
