Starting in Tiki12, some wizards were added to Tiki to help in the initial setup based on configuration templates like "Macros" (Profiles Wizard), as well as further site configuration (Admin Wizard), to help you while upgrading your tiki site to see what's new (Changes Wizard), and to help you as site admin to collect more information from your users if you need it (Users Wizard).

- Profiles Wizard
- Admin Wizard
- Changes Wizard
- User Wizard - Set up the User Details screen

Get Started

Congratulations! You now have a working instance of Tiki 18.7svn. You may start using it right away, or you may configure it to better meet your needs, using one of the configuration helpers below.

Tip
Mouse over the icons to know more about the features and preferences that are new for you. Example:

- You may start by applying some of our configuration templates through the Configuration Profiles Wizard. They are like the Macros for very common computer languages.
  - Start Configuration Profiles Wizard (Macros)
- Alternatively, you may use the Admin Wizard. This will guide you through the most common preference settings in order to customize your site.
  - Start Admin Wizard
- Or you may use the Upgrade Wizard. This will guide you through the most common new settings and information in order to upgrade your site.
  - Start Upgrade Wizard

Use the Control Panels to manually browse through the full list of preferences.
- Go to the Control Panels
