Feature Name

- Use Heading 1 for the Feature Name. (Because we don't add the page titles automatically).
- Describe what the feature is for in 100-200 words. Give a couple of examples how the feature would be used.
- Include a half page size (about 300 pixels wide) cropped image of the feature in action.
- backlink to index related pages, related features, general concepts etc. Don't use a bulleted list here because it takes up too much vertical space.

Using Multiple Pages to Document a Feature
If multiple pages are used to document a feature, list them here with a brief explanation. Use plain language to name additional pages.

((Create a Feature))
((Configure a Feature))
((Add Permissions to a Feature))

How to use Feature

Enable the Feature: (explain how to find this feature's admin panel with both breadcrumbs and a direct local url)
Administration > Feature > Page local url: yoursites.com/url

Explaining the "Create" Form
Create a table which explains the form that is used to create the instance of the feature.

<table>
<thead>
<tr>
<th>Option</th>
<th>Choices You have</th>
<th>Default Behavior</th>
<th>What this does in plain language</th>
</tr>
</thead>
<tbody>
<tr>
<td>Turn on Dinger?</td>
<td>Yes,No</td>
<td>No</td>
<td>Turns on a noisy dinger that dings when you ping</td>
</tr>
<tr>
<td>exact text from form</td>
<td>acceptable values, comma separated</td>
<td>what happens if you choose not to choose</td>
<td>what difference it makes</td>
</tr>
<tr>
<td>Dinger Name</td>
<td>alphanumeric</td>
<td>required field</td>
<td>You have to give the dinger a name.</td>
</tr>
</tbody>
</table>

Modify/Customize the instance
(explain how to find this feature's admin panel with both breadcrumbs and a direct local url)

Administration > Feature > Page local url: yoursites.com/url

Explaining the next form
Create a table which explains the form or options that customize the instance.
<table>
<thead>
<tr>
<th>Option</th>
<th>Choices You have</th>
<th>Default Behavior</th>
<th>What this does in plain language</th>
</tr>
</thead>
<tbody>
<tr>
<td>Turn on Dinger?</td>
<td>Yes,No</td>
<td>No</td>
<td>Turns on a noisy dinger that dings when you ping</td>
</tr>
<tr>
<td>exact text form</td>
<td>acceptable values, comma separated</td>
<td>what happens if you choose not to choose</td>
<td>what difference it makes</td>
</tr>
<tr>
<td>Dinger Name</td>
<td>alphanumeric</td>
<td>required field</td>
<td>You have to give the dinger a name.</td>
</tr>
</tbody>
</table>

**Permissions**

Explain what permissions can be applied to the feature and what they mean.

<table>
<thead>
<tr>
<th>Permission</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>a permission</td>
<td>Its explanation</td>
</tr>
<tr>
<td>last permission</td>
<td>Its explanation</td>
</tr>
</tbody>
</table>

**Try it out**

please link to the live Feature on *.tikiwiki.org*

**Do you know how to improve this page?**

Help us to improve the [Documentation](http://doc.tikiwiki.org/tiki-list_faqs.php). Edit this page after you've read the [Welcome Authors](http://doc.tikiwiki.org/tiki-list_faqs.php) guidelines.

**Developer Notes**

Notes on the ongoing development of this feature, please indicate the latest released stable version, identified bugs, links to development pages, etc.

**Developers Contact**

Developers who worked on or understand this feature should leave a contact link and indicate if they are available for paid or free help.

Editorial Board Meeting 200_MM

Motions Passed Last Month

- Motion X1: bla bla...
- Motion X2: bla bla...
- ...
- Motion XN: bla bla...

Motions Defeated Last Month

- Motion Y1: bla bla...
- Motion Y2: bla bla...
- ...
- Motion YN: bla bla...

1. Motions Carried Over

1.1. Motion Z1
2. New Motions

2.1. New Motion 1

**Motion**: Describe it here in 1 or 2 paragraphs. Just describe, don't discuss or justify why you propose that.

**Discussion**: Describe here why you propose that, pros and cons, etc. as much as needed.

**In Favor**:

**Opposed**: 

Next meeting: month 2009
