

## Changes Wizard

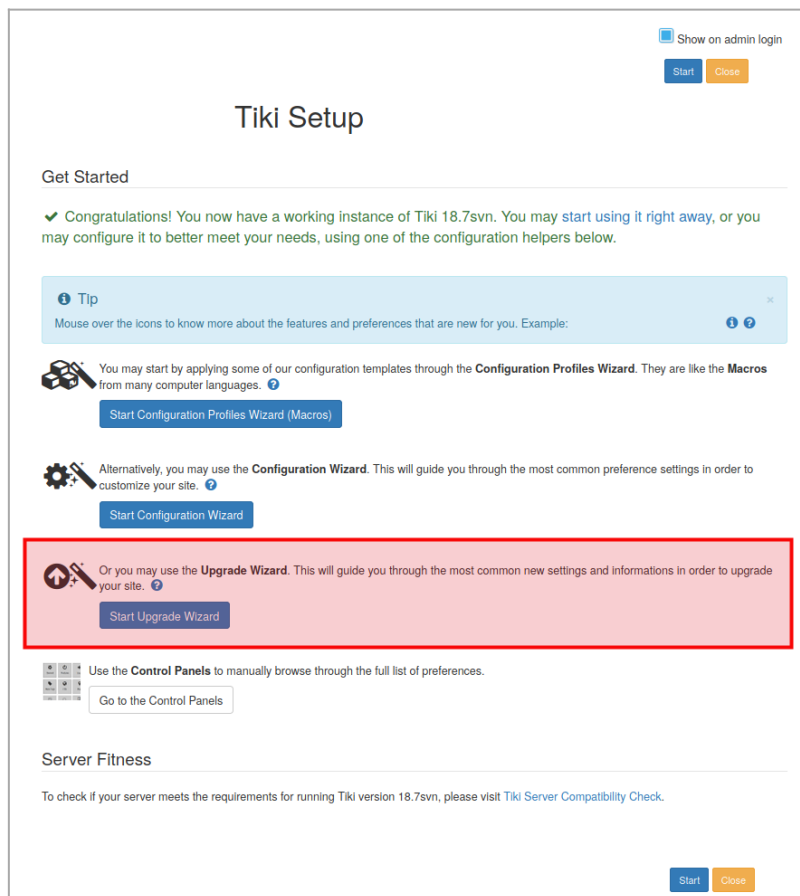

Starting in [Tiki12.2](#), this [Wizard](#) will guide you through the most common new settings and information in order to upgrade your site:

- Use it if you are upgrading from previous versions of Tiki, specially if you come from the previous Long Term Support (LTS) version.
- Some of these settings are also available through the [Admin Wizard](#), and all of them are available through [Control Panels](#)
- But this wizard will let you learn about them as well as enable/disable them easily according to your needs and interests for your site.

The screenshot shows the 'Tiki Setup' page. At the top left is the 'tiki wiki cms groupware' logo. At the top right is a 'Log out' link. Below the logo is a 'Tiki Setup' title. Underneath is a 'Get Started' section. A green message box says: '✓ Congratulations! You now have a working instance of Tiki 21.3vcs. You may start using it right away, or you may configure it to better meet your needs, using one of the configuration helpers below.' Below this is a 'Tip' box: 'Mouse over the icons to know more about the features and preferences that are new for you. Example: ⓘ'. There are four main options, each with an icon and a 'Start' button: 1. 'Configuration Profiles Wizard' (yellow icon) with a yellow 'Start Configuration Profiles Wizard (Macros)' button. 2. 'Configuration Wizard' (blue gear icon) with a blue 'Start Configuration Wizard' button. 3. 'Changes Wizard' (green upward arrow icon) with a green 'Start Changes Wizard' button. This section is highlighted with a red border. 4. 'Control Panels' (blue double arrows icon) with a blue 'Go to the Control Panels' button. Below this is 'Server Fitness' (red heart icon) with a red 'Go to the Tiki Server Compatibility Check' button. At the bottom right are 'Start the Wizardry' and 'Close' buttons.

It was first named as "Upgrade Wizard", and later, renamed to "Changes Wizard", to prevent confusion from users expecting it help them upgrade the software from one version to another. It is meant to display "what is new" in this tiki version, and display where possible the preferences and options from those new

features for the tiki site admin.
