

Contribution Admin

Admin setting

The contribution setting is set in admin->contribution. A contribution can be mandatory or not in a per-feature basis.

The screenshot displays the 'Admin Contributions' interface. It is divided into three main sections:

- Settings:** A table of checkboxes for various features. All are currently checked.
- Create a new contribution:** A form with fields for 'Name' and 'Description', and an 'add' button.
- List of contributions:** A table listing existing contributions with their names, descriptions, and action icons.

Admin Contributions		
>Settings		
Contributions are mandatory in wiki pages	<input checked="" type="checkbox"/>	
Contributions are mandatory in forums	<input checked="" type="checkbox"/>	
Contributions are mandatory in comments	<input checked="" type="checkbox"/>	
Contributions are mandatory in blogs	<input checked="" type="checkbox"/>	
Contributions are displayed in the comment/post	<input checked="" type="checkbox"/>	
Contributors	<input checked="" type="checkbox"/>	
	<input type="button" value="save"/>	
>Create a new contribution		
Name	<input type="text"/>	
Description	<input type="text"/>	
	<input type="button" value="add"/>	
>List of contributions		
Name	Description	Actions
Ajudes a companys	Ajudes a companys	
Altres*	Altres (cal informar per escrit al professorat del nou tipus de contribució...	

These contributions are displayed in page history and, if chosen, in the comment or post.

Another setting related to contributions is at Admin -> Login ("**Displays user's contribution in the user information page:**"). If enabled, a user will be able to see other user's activity log, including his/her contributions on the report. For 4.x this setting moved to second tab of Admin -> Community.
