FreeBSD

Installing for FreeBSD will require a little extra something in your db/local.php file.

Paste this:
$api_tiki='adodb';

at the end.

Resulting db/local.php file:

```
<?php
$db_tiki='mysql';
$dbversion_tiki='5.0';
$host_tiki='localhost';
$user_tiki='my_database_username';
$pass_tiki='my_database_secret_password';
$dbs_tiki='my_database_name';
$api_tiki='adodb';
?>
```
