First and last name tracker field IDs to set on creation	Comma-separated, with first name field followed by last name field; for example, '2,3'	None

Logging in and creating a user by using LinkedIn

Since Tiki15, you can also set up your site to allow users to log into LinkedIn as they can with Facebook.

Steps to do this are:

1. Register your site as a LinkedIn App.
    1. Note your Client ID and secret to put in your Tiki prefs.
    2. Set default permissions to r_basicprofile and r_emailaddress
    3. Set the authorized redirect url to: http://*yourtikisite.com*/tiki-socialnetworks_linkedin.php

1. Set your Tiki preferences for LinkedIn at /tiki-admin.php?page=socialnetworks
    1. Set your Client ID and Secret from Step 1.
    2. Check both login and auto-create user using LinkedIn

This will allow users to Log In using LinkedIn.
