

Cart Module

Introduced in [Tiki5](#)

This [module](#) displays the content of the cart, allows to modify quantities and proceed to [payment](#). It is intended to be used in conjunction with [PluginAddToCart](#).

Related Topics

- [Shopping Cart](#)
- [Plugin AddToCart](#)

Usage

You can assign the module in a module zone using the standard [Module Settings Interface](#).

You can also insert the module in any page using the [PluginModule](#):

Module

```
{module module="cart" ajax="y" showItems="y" showCount="y" showItemButtons="y" nobox="y"}
```

Parameters

Preferences required: `payment_feature`

Parameters	Accepted Values	Description	Default	Since
