

Plugin User Count

This [Wiki Plugin](#) displays the number of users for a site, group, or multiple groups (since [Tiki14.1](#)), on the site.

Parameters

Display number of users for a site or one or more groups

*Introduced in Tiki 1.*

[Go to the source code](#)

*Preferences required:* wikiplugin\_usercount

Parameters	Accepted Values	Description	Default	Since
(body of plugin)		Group name. If left blank, the total number of users for the site will be shown.		
<code>groups</code>	groupname separator: <code>:</code>	List of colon separated groups where a consolidated user count for multiple groups is needed. Users in multiple groups are counted only once. If left blank then the behaviour is defined by the body parameter settings.		14.1
