

# Onglet de protection contre le spam

La [protection contre le pourriellage Akismet](#) pour les commentaires a été ajouté à [Tiki8](#), et le bannissement de plusieurs IP à partir de la [modération des commentaires](#) ou du journal des actions a été ajouté dans [Tiki9](#).

## Aperçu général

utilisez cet onglet pour activer les CAPTCHA anti-spam et protéger les liens vers les adresses électroniques.

## Pour y accéder

depuis la page [administration de la sécurité](#), cliquez sur l'onglet **Protection anti-spam**.

## Note

lorsque cette option est activée, les fonctions suivantes de Tiki sont protégées :

- édition de pages wiki
- commentaires de pages wiki
- messages et réponses du forum
- commentaires sur les éléments du tracker
- freetags
- éléments du calendrier
- abonnements à la lettre d'information
