## Enabling Slideshows

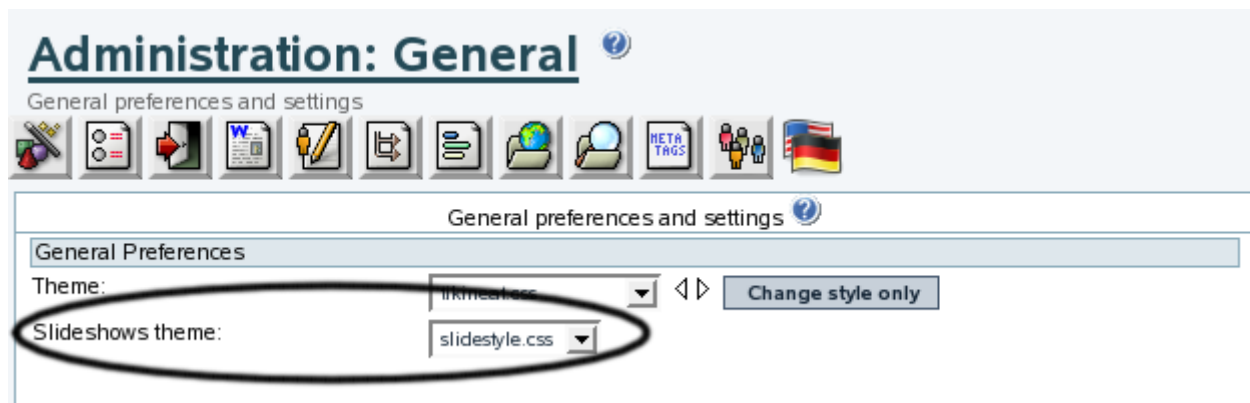

Select Admin--->Wiki and check the selection box "Uses Slideshow". (See below)

The screenshot shows a list of checkboxes on the left and a corresponding list of settings on the right. The 'Uses Slideshow' checkbox is circled in red. The settings on the right include: 'Use Wiki paragraph formatting:' (unchecked), 'Automonospaced text:' (checked), 'Tables syntax:' (set to '|| for rows'), 'Uses Slideshow:' (checked), 'Open page as structure:' (unchecked), 'Use external link icons:' (unchecked), and 'User's Page:' (checked).

## Changing Slideshow Appearance

To change the appearance of your slides, select the CSS file to use in the Admin--->General panel. (See below)

The screenshot shows the 'Administration: General' panel with the title 'General preferences and settings'. Below the title is a row of icons. The 'General Preferences' section is expanded, showing a 'Theme:' dropdown menu with 'linkme.css' selected. Below it, the 'Slideshows theme:' dropdown menu is circled, showing 'slidestyle.css' selected. A 'Change style only' button is also visible.

Slideshows require a titlebar !!

The 'Slides' link appears on a page when there are 'titlebar' (=-title=-) tags on that page. Titlebar tags are used to indicate new slides for the slideshow.
