Step by step instructions for beginners

To use the BOX plugin, do the following:

1. Place the insertion point on a blank line.
2. Define the box and the options you want (title, background color, and/or width) by following these
examples:

1. Title: \{BOX(title="Title")\}
2. Background color: \{BOX(bg="#CCCCCC")\}
3. Width in pixels: \{BOX(width="256")\}
4. Width in percentage: \{BOX(width="75%")\}
5. All options: \{BOX(title="Title" bg="#CCCCCC" width="75%")\}

3. Type the text you would like to place within the box, and press **Enter**.
4. Type \{BOX\}

Did something go wrong?

- Double-check your typing to make sure you have included all the necessary curly braces, commas, and parentheses.
- If you're sure you typed the plugin syntax correctly, ask your administrator whether the BOX plugin is enabled.
