Referer Stats

Overview
This page shows the different sources (referring domains) that have sent traffic to your Tiki site. Each hit represents a visit from a person who clicked to your site from the referring domain.

To Access
From the Admin menu, select Admin > Referer Stats.
or
Access http://example.org/tiki-referer_stats.php

Note
You must enable the Referer Stats option on the General Settings tab of the General Admin page.

Referer Stats page

Field | Description
--- | ---
Domain | The URL of the referring site. Click the domain name to view the actual referring page.
Hits | The total number of referrals from the domain.
Last | The time and date of the last (most recent) referral from this domain.

To use this feature, enable the Referer Stats option in the Stats area of the General Settings tab on the
