Step by step instructions for beginners

To use the BOX plugin, do the following:
1. Place the insertion point on a blank line.
2. Define the box and the options you want (title, background color, and/or width) by following these examples:
   1. Title: `{BOX(title="Title")}`
   2. Background color: `{BOX(bg="#CCCCCC")}`
   3. Width in pixels: `{BOX(width="256")]`
   4. Width in percentage: `{BOX(width="75%")}
   5. All options: `{BOX(title="Title" bg="#CCCCCC" width="75%")}
3. Type the text you would like to place within the box, and press **Enter**.
4. Type `{BOX}`

**Help!**

Did something go wrong?

- Double-check your typing to make sure you have included all the necessary curly braces, commas, and parentheses.
- If you're sure you typed the plugin syntax correctly, ask your administrator whether the BOX plugin is enabled.
