Calendar Admin

Enabling the Calendar Feature

From the Administration: Administration page, click on the features icon. The calendar feature is enabled by clicking the check box in the top section of the admin page, then saving your changes. You now should see a Calendar item when you expand the Admin menu.

Configuring the Global Calendar Settings

You can select the Calendar settings through the Main Application menu "Admin home > Calendar (icon)"

or (which will lead you to tiki-admin.php?page=calendar)

Tip

To add/remove calendars, look for "Calendar" under "Admin" on the application menu, or Click Here

Calendar settings

Group calendar sticky popup
Group calendar item view tab
Default view mode
Calendar manual selection of time/date
JsCalendar
First day of the week
Split hours in periods of
First year in the dropdown, either year number, or relative to current year (+/- N) if no jsCalendar
Last year in the dropdown, either year number, or relative to current year (+/- N) if no jsCalendar

Global Calendar Settings Page for 1.10

Group Calendar Sticky Popup

If enabled the calendar stays on screen after the mouse is moved away from event date
Create or edit calendars
Click on "Admin > Calendar" to go to Calendar Admin (tiki-admin_calendars.php).

There are two sections (tables) to this screen:

### Admin Calendars

Custom Locations: no
Custom Participants: no
Custom Categories: no
Custom Languages: no
Custom Subscription List: no
Custom Priorities: no
Personal Calendar: no

The following selections enable custom pulldown menus for additional descriptive fields:

- **Custom Locations:**
- **Custom Categories:**

**Please note:** from v6.0 the label "Custom Categories" is changed to "Custom Classifications" to avoid confusion with permission categories.

Other selections control specialized features:

- **Custom Participants:** - only a specified list of registered users can use the calendar.
- **Custom Languages:** - language selection from pulldown menu of available languages.
- **Custom Priorities:** - select priority from 1-9.
- **Personal Calendar:** - controls whether only the owner of the calendar will have access to this calendar.

Assigning permissions
Import a list of events

You can import a list of events in a csv (Comma Separated Values) file, through tiki-calendar_import.php.

- Column names on the first line:
  name,description,start date,start time,end date,end time,status,lang,categoryId,locationId,priority,url,categoryId
- subject column name can be used instead of name
- Date format: See http://php.netstrtotime

Personal calendar

The personal calendar is a calendar where an event is only visible by the user that creates it. Physically it is a big unique calendar in the database that contains all the events. An event is displayed only for his creator. A personal calendar has special perms that needs to be reserved to work correctly. The admin can choose a name for a personal calendar. You can have more than one personal calendar.

Urls

- the url to add an event directly to an specific calendar is
  tiki-calendar_edit_item.php?calendarId=5, if 5 is the id of the calendar where you want the event to be stored
- The url to display one calendar is
tiki-calendar.php?callds=5, if 5 is the id of the calendar you want to display

- To display more than one calendar
  tiki-calendar.php?calIds[]=5&calIds[]=1, if 5 and 1 are the calendar ids

- To display all the calendars
  tiki-calendar.php?allCals=y

- To display the calendars in mode list
  tiki-calendar.php?viewlist=list

Other value for viewlist is table

- To display the calendars in mode list
  tiki-calendar.php?viewmode=month

Other values for viewmode are day, week, month, quarter, semester, year

- Any of the above parameters can be cumulated
  tiki-calendar.php?viewlist=list&calIds[]=5
