Tags General Settings tab

Overview

This tab is the main place to enable and disable Freetags features and attributes.

Tags can be set:

- in the **Properties** tab when editing Wiki pages
- Using a Module
  - May be located in the left or right column or at the top or bottom of a Wiki page.
- Using a Plugin
  - May be located on any page, anywhere on the page.
- Using a Tracker
  - Using an input field as setup by the Tracker creator.

To Access Admin

From

- Left main menu >> Settings >> Control Panels >> Tags
  - Then Click on the Tags button
