

# Index of Modules

The following pages explain and illustrate the function of each module as well as the syntax to be used. Any parameters specific to that module are also explained. Parameters common to all or many modules are explained at [Module Settings Interface](#).

An alphabetical table of contents follows. Below that is an [index by category](#).

## Alphabetical Index of Modules

- [Module action\\_calendar](#) : *Display a calendar of system events*
- [Module action\\_similarcontent](#) : *List similar content based on Freetags*
- [Module logo](#) : *Display site logo, title and subtitle*
- [Module map\\_edit\\_features](#) : *Allows shapes to be drawn over the map.*
- [Module menu](#) : *Displays a menu or a structure as a menu*
- [Module share](#) : *Display links to different Social Network (like, Share, Tweet, etc.)*
- [Module share](#) : *Display links to different Social Network (like, Share, Tweet, etc.)*
- [Module Google AdSense](#) : *Add a Google Adsense advertisement to your Tiki*
- [Module articles](#) : *Display a list of articles*
- [Module assistant](#) : *Simple welcome module with links to help new admins*
- [Module article\\_archives](#) : *Display articles by month*
- [Module calendar\\_new](#) : *Display a small calendar*
- [Module categories](#) : *Display links to categories in a tree*
- [Module category\\_transition](#) : *Display controls to trigger category transitions*
- [Module change\\_category](#) : *Allow users to change the category of a page*
- [Module breadcrumb](#) : *List most recently visited pages*
- [Module comm\\_received\\_objects](#) : *Displays the number of pages received (via Communications).*
- [Module credits](#) : *Shows the credits a user has.*
- [Module directory\\_last\\_sites](#) : *Displays the specified number of the directory sites most recently added.*
- [Module directory\\_stats](#) : *Displays statistics about the directory, including the number of sites validated and to validate, the number of categories, of searches and of visited links.*
- [Module directory\\_top\\_sites](#) : *Displays the specified number of the directory sites from most visited to least visited.*
- [Module facebook](#) : *Shows the Wall of a user*
- [Module featured\\_links](#) : *Displays the site's first featured links.*
- [Module forums\\_best\\_voted\\_topics](#) : *Displays the specified number of the forum topics with the best ratings.*
- [Module forums\\_last\\_posts](#) : *Displays the latest forum posts.*
- [Module forums\\_most\\_commented\\_forums](#) : *Display the specified number of the forums with the most comments.*
- [Module forums\\_most\\_read\\_topics](#) : *Display the specified number of the forum topics with the most reads.*
- [Module forums\\_most\\_visited\\_forums](#) : *Display the specified number of the forums with the most visits.*
- [Module freetags\\_current](#) : *Displays current tags on wiki pages and enables adding tags if permissions allow.*
- [Module freetags\\_morelikethis](#) : *List pages with tags in common with the page being viewed*
- [Module freetags\\_most\\_popular](#) : *Displays the most popular freetags in a list or cloud*
- [Module freetags\\_preferred](#) : *Displays to registered users the tags they prefer, based on the number of objects they tagged. Greater preference is indicated by a larger text size.*
- [Module google](#) : *Displays a Google search box for searching the site or the web*
- [Module groups\\_emulation](#) : *Enables temporarily changing one's group memberships to see how users in fewer groups experience the site.*
- [Module last\\_actions](#) : *Displays the specified number of last actions.*
- [Module last\\_blog\\_posts](#) : *Lists the specified number of blogs posts from newest to oldest.*
- [Module last\\_category\\_objects](#) : *Displays the most recently updated objects in a category*
- [Module last\\_created\\_blogs](#) : *Displays the specified number of blogs from newest to oldest.*
- [Module last\\_created\\_faqs](#) : *Displays a list of most recently created FAQs*
- [Module last\\_created\\_quizzes](#) : *Displays the specified number of quizzes from newest to oldest.*
- [Module last\\_files](#) : *List the specified number of files, starting from the most recently added.*
- [Module last\\_file\\_galleries](#) : *Display the specified number of file galleries, starting from the most recently modified.*
- [Module last\\_modified\\_blogs](#) : *Displays the specified number of blogs, starting from the most recently modified.*
- [Module last\\_modif\\_events](#) : *Display the specified number of calendar events, starting from the most recently modified.*
- [Module last\\_modif\\_pages](#) : *List the specified number of pages, starting from the most recently modified.*
- [Module last\\_submissions](#) :
- [Module last\\_tracker\\_comments](#) : *Lists the specified number of tracker comments (optionally restricting to those in a specific tracker or tracker item) starting from the most recently posted.*
- [Module last\\_tracker\\_items](#) : *Displays the value of a field of the specified number of tracker items. If the specified tracker has no main field, either Field name or Field identifier is required.*
- [Module last\\_validated\\_faq\\_questions](#) : *Displays the specified number of validated questions FAQs from newest to oldest.*

- **Module last\_visitors** : Displays the most recent registered visitors to the site
- **Module last\_youtube\_playlist\_videos** : Display a YouTube playlist
- **Module live\_support** : Tells users whether a live support operator is present and allows them to request support if possible. If the user is an operator, links to the operator console.
- **Module list** : A simple wrapper for PluginList as a module
- **Module login\_box** : Displays a login box
- **Module menu** : Displays a menu or a structure as a menu
- **Module menupage** : Displays the content of a wiki page as a menu
- **Module messages\_unread\_messages** : Displays to users their number of new inter-user messages and a link to their message box.
- **Module minichat** : Small live chat box
- **Module months\_links** : Link to articles or blog posts for the current month and those preceding it.
- **Module num\_submissions** : Displays the number of article submissions waiting examination and a link to the list.
- **Module old\_articles** : Displays the specified number of old articles (which do not show on articles home page anymore).
- **Module online\_users** : Display information about users currently logged in.
- **Module permissions** : List of active permissions for current object
- **module perspective** : Enables to change current perspective.
- **module poweredby** : Powered by Tiki, and others
- **Module quick\_edit** : Enables to quickly create or edit Wiki pages.
- **Module quickadmin** : Some helpful tools for administrators.
- **Module adminbar** : Consolidated admin bar with an easy access to quick admin links, recent changes, and important admin features
- **Module random\_pages** : Displays the specified number of random wiki pages.
- **Module register** : Permit anonymous visitors to create an account on the site.
- **Module search\_wiki\_page** : Search for a wiki page by name.
- **Module semantic\_links** : List the relationships known for the Wiki page displayed. For each relation type contained in the page, it lists all the pages it links to or gets linked from.
- **Module shoutbox** : The shoutbox is a quick messaging tool. Messages reload each time the page changes. Anyone with the right permission can see all messages. Another permission allows messages to be sent..
- **Module since\_last\_visit** : Displays to logged-in users the number of new or updated objects since their last login date and time.
- **Module since\_last\_visit\_new** : Displays to logged-in users new or updated objects since a point in time, by default their last login date and time.
- **Module switch\_lang** : Displays a language picker to change the language of the site.
- **Module switch\_color\_mode** : Switch between light, dark, and browser color scheme preference
- **Module switch\_theme** : Enables to quickly change the theme for the user.
- **Module top\_active\_blogs** : Displays the specified number of blogs with links to them, from the most active one to the least.
- **Module top\_articles** : Lists the specified number of articles with links to them, from the most visited one to the least.
- **Module top\_files** : Displays the specified number of files with links to them, starting with the one with most hits.
- **Module top\_file\_galleries** : Displays the specified number of file galleries with links to them, starting with the one with most hits.
- **Module top\_forum\_posters** : Displays the specified number of users who posted to forums, starting with the one having most posts.
- **Module top\_objects** : Displays the specified number of objects, starting with the one having the most hits.
- **Module top\_pages** : Displays the specified number of wiki pages with links to them, starting with the one having the most hits.
- **Module top\_quizzes** : Displays the specified number of quizzes with links to them, starting with the one having the most hits.
- **Module top\_visited\_blogs** : Display the specified number of blogs with links to them, from the most visited one to the least.
- **Module top\_visited\_faqs** : Display the specified number of FAQs with links to them, from the most visited one to the least.
- **Module trackerhelp** : Display the fields of a tracker (name and identifier)
- **Module twitter** : Shows the tweets from the Twitter timeline of a user
- **Module upcoming\_events** : Lists the specified number of calendar events, ordered by their start date.
- **Module user\_blogs** : Displays to registered users their blogs.
- **Module user\_bookmarks** : Lightweight interface to user bookmarks, enabling to view them concisely, do some manipulations and bookmark the page being viewed
- **Module user\_pages** : Displays to registered users the specified number of wiki pages which they were the last to edit.
- **Module user\_tasks** : Lightweight interface to user tasks, enabling to view them concisely and do some manipulations
- **Module users\_list** : Display a list of users with optional extra information from each.
- **Module users\_own\_rank** : Display the logged user's rank and score.
- **Module users\_rank** : Display the specified number of users and their score, starting from the one with the highest score.
- **Module whats\_related** : Lists objects which share a category with the viewed object.
- **Module who\_is\_there** : Display information about users currently logged in.
- **Module wiki\_last\_comments** : Lists the specified number of comments starting from the most recently posted.
- **Module youtube** : Displays YouTube videos and or a link to a YouTube user's page.
- **Module zone** : Can contain other modules so can be used as a Bootstrap navbar object, for example.
- **Module zotero** : Search the group's Zotero library for entries with the specified tags

# Modules by Category

## Feature Modules

Module Name <sup>1</sup>	Module Title <sup>2</sup>	Description	Parameters	Versions
articles	Articles		title, type, topicId, topic, start	
breadcrumb	Recently visited pages	Lists recently-visited pages.	maxlen	
calendar	Calendar-Filter			
calendar	Calendar-Filter		3.x, 4.x, 5.x, 6.x	
categories		Displays category objects.	type, deep, categId, style	1.10
change_category			id, shy (show only if page is in categ)	
comm_received_objects				
current_activity		Display users who are currently editing a page or a tracker		
directory_stats	Directory stats			
featured_links	Featured links	Displays featured links.		
minichat	Mini chat	Shows a small box for chat updated at real time without browser refresh.		
package		A module that shows content from a Tiki Package View		
permission		List of active permissions for current object		
random_pages		Displays a link to a random wiki page.		
random_images		Displays a random image thumbnail.	galleryId	
shoutbox		post comments in to the module for all to see	tooltip	
who_is_there	Online users	Lists usernames of logged-in users.	cluster	

Module Name <sup>1</sup>	Module Title <sup>2</sup>	Description	Parameters	Versions
login_box		The login/logout box	input_size (since 1.10)=size in characters of the text input box	
online_users	Online users	Lists real names of logged-in users.		

## User's Configuration Modules

Module Name <sup>1</sup>	Module Title <sup>2</sup>	Description	Parameters	Versions
switch_lang		Switch site language (dropdown list selector).	title, nobox, flip, decorations	
switch_lang2		Switch site language (select among text links).	title, nobox, flip, decorations	
Module switch_lang_admin		Displays a language picker to change the language of admin site	title, nobox, flip, decorations	
switch_theme		Allows users to switch site theme		
switch_color_mode		Allows users to switch site color mode (light, dark, auto (and, coming soon, custom))		

## Navigation Modules

Module Name <sup>1</sup>	Module Title <sup>2</sup>	Description	Parameters	Versions
directory_last_sites		Lists latest sites links added to Directory.	nonums, absurl ( [y n] - If not set, default = relative)	
directory_stats		Shows Directory statistics.		
directory_top_sites		Shows most-visited sites in Directory.		
list		List objects from the Unified Index		
whats_related		Lists objects in same category as current page/object.		

## Recent Changes Modules

Module Name <sup>1</sup>	Module Title <sup>2</sup>	Description	Parameters	Versions
<a href="#">forums_last_posts</a>		Lists recent forum posts.	nonums	
<a href="#">forums_last_topics</a>		Lists recent new forum topics. Or in version 1.10, also recently replied to forum topics	nonums, absurl	
<a href="#">since_last_visit</a>		Shows changes in various features since last login		
<a href="#">since_last_visit_new</a>		Shows changes in various features since last login	showuser ,showtracker	
<a href="#">wiki_last_comments</a>		Most recently added wiki comments	more tooltips, nonums	
<a href="#">last_actions</a>		Displays latest users' actions.	showuser, showdate, nonums, maxlen	
<a href="#">last_articles</a>		Displays latest articles.	type, topicId. topic, nonums, absurl	
<a href="#">last_blog_posts</a>		display latest blog posts	blogid, title, nonums	
<a href="#">last_category_objects</a>		Recently categorized objects	type, id	
<a href="#">last_created_blogs</a>		Recently created blogs	nonums	
<a href="#">last_created_faqs</a>		Recently created FAQs	nonums	
<a href="#">last_created_quizzes</a>		Recently created Quiz	nonums	
<a href="#">directory_last_sites</a>	Last Sites	Recently added links in Directory.		
<a href="#">last_files</a>		Displays files uploaded since last visit	galleryId, nonums	
<a href="#">last_file_galleries</a>		Displays file galleries modified since last visit		
<a href="#">last_image_galleries</a>		Displays latest Image Gallery modified since last visit	nonums	
<a href="#">last_images</a>		Lists most-recent image uploads.	galleryId, nonums	
<a href="#">last_images_th</a>		Shows thumbnails of most-recent image uploads.	galleryId	
<a href="#">last_modified_blogs</a>		Display blogs modified since last visit.	nonums	
<a href="#">last_modif_events</a>			calendarId, maxlen, nonums	

Module Name <sup>1</sup>	Module Title <sup>2</sup>	Description	Parameters	Versions
<a href="#">last_modif_pages</a>		Displays most recently edited <a href="#">wiki</a> pages	minor, maxlen, nonums, absurl	
<a href="#">last_modif_tracker_items</a>		Lists the tracker items added since last visit	name, trackerId, nonums	
<a href="#">last_submissions</a>		Lists the tracker items added since last visit.	nonums	
<a href="#">last_tracker_comments</a>			trackerId, itemId, nonums	
<a href="#">last_tracker_items</a>		Lists the last tracker items added.	status, name, trackerId, nonums	
<a href="#">last_visitors</a>		Lists recent logged-in visitors.	maxlen, nonums	

## "Best of" Modules

Module Name <sup>1</sup>	Module Title <sup>2</sup>	Description	Parameters	Versions
<a href="#">forums_best_voted_topics</a>	Top topics		nonums	
<a href="#">forums_most_commented_forums</a>			nonums	
<a href="#">forums_most_read_topics</a>			nonums	
<a href="#">forums_most_visited_forums</a>			nonums	
<a href="#">top_active_blogs</a>			nonums	
<a href="#">top_articles</a>		Lists <a href="#">Articles</a> by number of hits	nonums	
<a href="#">top_files</a>		Lists files by number of hits (downloads?)	nonums	
<a href="#">top_file_galleries</a>		Lists <a href="#">file galleries</a> by number of hits.	nonums	
<a href="#">top_forum_posters</a>		Lists most-active forum posters.	nonums	
<a href="#">top_games</a>		Lists Games by number of hits.	nonums	
<a href="#">top_images</a>		Lists <a href="#">Images</a> by number of hits.	nonums	
<a href="#">top_images_th</a>		Shows thumbnails of most-viewed images.		
<a href="#">top_image_galleries</a>		Lists <a href="#">Image Gallery</a> pages by number of hits.	nonums	
<a href="#">top_objects</a>		Lists most-viewed objects (pages, galleries, etc.).	nonums	

<b>Module Name<sup>1</sup></b>	<b>Module Title<sup>2</sup></b>	<b>Description</b>	<b>Parameters</b>	<b>Versions</b>
top_pages		Lists <a href="#">Wiki</a> pages by number of hits.	nonums	
top_quizzes		Lists <a href="#">Quiz</a> by number of hits.	nonums	
top_visited_blogs		Lists <a href="#">Blog</a> by number of hits.	nonums	
top_visited_faqs		Lists <a href="#">FAQs</a> by number of hits.	nonums	

## Help and Support Modules

<b>Module Name<sup>1</sup></b>	<b>Module Title<sup>2</sup></b>	<b>Description</b>	<b>Parameters</b>	<b>Versions</b>
assistant	Tiki Assistant	Welcome message to admin of new Tiki installation.		
live_support		Starts the live support feature		

## Search Modules

<b>Module Name<sup>1</sup></b>	<b>Module Title<sup>2</sup></b>	<b>Description</b>	<b>Parameters</b>	<b>Versions</b>
<i>Module Name</i>	<i>Title</i>	<i>Short Description</i>	<i>Specific Params</i>	<i>tw release</i>
google	Google Search	Web search		
search_box		Search in entire site or by feature.		
search_last_rebuild_stats	Search Rebuild Stats	search_last_rebuild_stats		
search_new		Search in entire site or by feature.		
search_wiki_page		Search for wiki page name.		
websearch		Displays a simple form to perform a web search with choice on multiple search engines		

## MyTiki Modules

<b>Module Name<sup>1</sup></b>	<b>Module Title<sup>2</sup></b>	<b>Description</b>	<b>Parameters</b>	<b>Versions</b>

<b>Module Name<sup>1</sup></b>	<b>Module Title<sup>2</sup></b>	<b>Description</b>	<b>Parameters</b>	<b>Versions</b>
user_blogs		Lists "my Blogs" from the <a href="#">MyTiki</a> feature	nonums	
user_bookmarks		Lists "my Bookmarks" from the <a href="#">MyTiki</a> feature		
user_image_galleries		Lists "my Pages" from the <a href="#">MyTiki</a> feature	nonums	
user_pages		Lists "my Pages" from the <a href="#">MyTiki</a> feature	nonums	
user_tasks		Lists tasks from the <a href="#">MyTiki</a> feature		
messages_unread_messages		Displays the number of new user messages		

## Miscellaneous Modules

<b>Module Name<sup>1</sup></b>	<b>Module Title<sup>2</sup></b>	<b>Description</b>	<b>Parameters</b>	<b>Versions</b>
adminbar	adminbar	Consolidated admin bar with an easy access to quick admin links, recent changes, and important admin features		
cookiesettings	cookiesettings	Allows users to change their cookie consent preferences		
events	Current events	Displays calendar (?)		
git_detail		GIT commit and last update information		
menupage		Displays a wiki page's content.	name	
num_submissions				
old_articles				
quick_edit			title, templateId, submit, size, mod_quickeedit_heading, cateId	
recordrtc				
short_url		Creates or shows a short url for the visiting page		
wikistructure		Dynamic navigation menu created on the fly from a given structre toc	id, maxdepth (in theory, same as <a href="#">toc</a> )	2.x, some params only in 3.0 like "maxdepth".

<b>Module Name<sup>1</sup></b>	<b>Module Title<sup>2</sup></b>	<b>Description</b>	<b>Parameters</b>	<b>Versions</b>
tail		(used by devs)	file, title, max, reverse, filter	
upcoming_events			calendarId, maxDays, maxlen, nonums, date_format	
action_similarcontent	Similar Content	Display similar content to current object using FreeTags	contentType	5.0
freetag		allows to add and remove tag from a current object		
freetags_current		displays the current tags of an object. Only for a wiki page.		
freetags_preferred		Shows the favorite tags of a user. The number of tags is the value of the parameter rows defined at the module assignment.		
freetags_most_popular		Shows the most popular tags. The number of tags is the value of the parameter rows defined at the module assignment.		
freetags_morelikethis		Shows the objects that have the same tags than an object. Only for a wiki page. The number of objects is the value of the parameter rows defined at the module assignment.		
pagetop_hero		An easy page-top hero section located in Tiki's topbar module zone	nobox	
poll		Displays a poll in a wiki page	pollId
