Clean URLs with Lighttpd

Draft rewrite rules for Tiki on lighttpd. This is a starting point for testing and further development of the rules. Please adapt to your site and test thoroughly that they work and are complete; and use at your own risk.

Add to lighttpd configuration file

```plaintext
$HTTP["host"] =~ "(www.)?example.com" { 
  url.rewrite-once += ( 
    # TIKI 
    # Allow all normal files
    "^/.*(css|gif|jpg|png|php|html|js|htm|shtml|cgi|sql|phtml|txt|ihtml|ico|swf)(\?.*)?$" => "$0",
    # direct one-word access - is the / needed?
    "(^img/trackers/\.*$)" => "$1",
    "^calendar$" => "/tiki-calendar.php",
    "^articles$" => "/tiki-view_articles.php",
    "^blogs$" => "/tiki-list_blogs.php",
    # The following supports up to seven merged calendars; most to least.
    "^cal([0-9]+)" => "/tiki-calendar.php?calIds[]=1",
    "^categories$" => "/tiki-browse_categories.php",
    "^chat$" => "/tiki-chat.php",
    "^contact$" => "/tiki-contact.php",
    "^directories$" => "/tiki-directory_browse.php",
    "^dirlink([0-9]+)" => "/tiki-directory_redirect.php?siteId=$1",
    "^faqs$" => "/tiki-list_faqs.php",
    "^filelist$" => "/tiki-list_file_gallery.php",
    "^forums$" => "/tiki-forums.php",
    "^galleries$" => "/tiki-galleries.php",
    "^login$" => "/tiki-login_scr.php",
    "^logout$" => "/tiki-logout.php",
```

2013-06-19 A PHP route.php file now replaces the rewrite rules from _htaccess 
http://sourceforge.net/p/tikiwiki/code/44661/ for Tiki11 so the instructions below can be vastly simplified.  
We are looking for a volunteer to do this and to commit a default to the main code base.
url.redirect = {
    "^/(.*)" => "http://example.com/$1"
}
}
