Module freetags_most_popular

This Module displays the most popular tags in either a list or tag cloud. More popularity is indicated by a larger font. The feature Freetags must be activated.

Usage

You will see it listed at "Admin > Modules > Assign new module > Module Name (drop down)" (tiki-admin_modules.php). Depending on the Tiki version, this module name in that drop down list can be either "freetags_most_popular" or "Most popular tags".

You can assign a this Module to a side column (See Module Admin page if needed), or you can include it within a wiki page, using the PluginModule.

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Values</th>
<th>Description</th>
</tr>
</thead>
</table>
| type      | cloud or string | Defines the style of display  
cloud as a 'cloud'  
list as a list  
- the most popular will have a bigger font |
| max       | integer | maximum tags to be returned |

The assigned module looks like this:

*image here* (without surrounding box, sionce it's not needed for module boxes)

Examples

Basic syntax

Example with parameters

```
{module module="freetags_most_popular" type="cloud" max="100"}
```

NOTE: This requires approval by an admin.
