

# Plugin Aliases tab

Related Topics

## Overview

Use this tab to create a new [wiki plugin](#), by using a modified copy of an existing [plugin](#).

- [Wiki Plugin](#)
- [Plugin Alias](#)

## To Access

From the [Text Area](#) Admin page, click the **Plugin Aliases** tab.

## Note

*if applicable*

The screenshot shows the 'Text area' admin interface with the 'Plugin Aliases' tab selected. The page has a light blue header with navigation tabs: 'General Settings', 'Plugins', and 'Plugin Aliases'. A 'No Tabs' button is visible in the top right. Below the header is a section titled 'About plugin aliases' with an information icon and a close button. The main content area is divided into several sections: 'General Information' with fields for 'Plugin Name', 'Base Plugin' (set to 'addtocart'), 'Name', 'Description', 'Body Label', 'Dependencies', 'Filter' (set to 'xss'), 'Validation' (set to 'none'), and an 'Inline (No Plugin Edit UI)' checkbox; 'Simple Plugin Arguments' with 'New Argument' and 'Default' input fields; 'Plugin Parameter Documentation' with a plus icon; 'Plugin Body' with an 'Ignore User Input' checkbox and a large text area; 'Default Content' with a plus icon; 'Parameters' with a plus icon; and 'Composed Plugin Arguments' with a plus icon. A 'Change preferences' button is located at the bottom right of the form.
