Example

In this example, additional formatting is applied to the items in the list: the double single quotes ( "") to produce italics, and the two underscores before and after the words ( __ ) to make the font bold. See Wiki Syntax for more information on text formatting.

This code,

```plaintext
{FANCYLIST()}

'"Antiquity__"
'"Middle Ages__"
'"Renaissance__"
'"Age of Enlightenment__"
'"Romantic Era__"
'"20th Century__"
'"Present Day__"
{FANCYLIST}
```

Would produce:

1. **Antiquity**
2. **Middle Ages**
3. **Renaissance**
4. **Age of Enlightenment**
5. **Romantic Era**
6. **20th Century**
7. **Present Day**
