

# Plugin Scroll

Added to [Tiki5](#), previously in [Mods](#).

Use this [wiki plugin](#) to show animated text that scrolls on the screen.

## Parameters

Show animated text that scrolls up or down

Introduced in [Tiki 5](#). Required parameters are in **bold**.

[Go to the source code](#)

Preferences required: `wikiplugin_scroll`

Parameters	Accepted Values	Description	Default	Since
(body of plugin)		text		
<b>height</b>		Height in pixels. Example: 450px.		5.0
<b>width</b>		Width in pixels. Example: 600px.		5.0
speed	digits	Scroll speed in number of seconds (default is 8)	8	5.0

## Examples

This code:

```
{SCROLL(width="400px" height="100px" )} See this list of items: # Item 1 # Item 2 # Item 3 # Item 4 # Item 5 # Item 6 # Item 7 # Item 8 # Item 9 {SCROLL}
```

Would produce:

[Down](#) [Up](#) [Stop](#) [Top](#)

See this list of items:

1. Item 1
2. Item 2
3. Item 3
4. Item 4
5. Item 5
6. Item 6
7. Item 7
8. Item 8
9. Item 9

## Aliases
