

Rating Tracker Field

This is a [stub](#)

Introduced in [Tiki8](#), this is the corresponding tracker field to the feature [Rating](#) and [Advanced Rating](#).

In [Tiki12](#), at least, you have 3 modes:

- Stars
- Radio Buttons
- Single option: e.g. Like

You can also set the labels to something else different from the real values that will be stored for the calculation of average, etc.

In this example, below, the tracker field Rating was set with:

- Option: -2,-1,0,1,2
- Mode: Stars
- Labels: -2,-1,0,1,2

Tracker: Bugs & Wish list

The screenshot shows the Tiki Tracker interface for a tracker named "Bugs & Wish list". At the top, there are two buttons: "Trackers" and "View Items". Below them is a red banner with the text: "If this is your first time, please read: [How to Submit a new item on the Wish](#)".

The main content area has two tabs: "Tracker Items" and "Insert New Item". Below the tabs, it says "Items found: 1552".

The tracker items are displayed in a table with columns: "New Rating", "Subject", and "Subj".

New Rating	Subject	Subj
(1) Monitoring pre-dogfood servers marc		
(2) Together: make it work for wiki pages, spreadsheet, drawing, marc		
(1) Screenscasts in comments: no longer showing marc		

A tooltip is visible over the second item, showing: "Number of votes: 2, Average: 1.5, Your rating: 2".
