

Starting a Slideshow

Click the "Slides" button at the bottom of the wiki page.

New since Tiki7: A new slideshow engine based on JQS5 has been added in Tiki. See an example at the [PluginSlideshow](#) page.

Example:

See this page: http://tikiwiki.org/Presentation20050319Crisol_Argentina

From this normal looking Tiki page (central and right columns in wiki view mode)...

...when you click on the **slides** button, you can see it in the slides presentation mode (showing slide 2 in this screenshot):

Slides add automatic links to previous and next slides, home slide and edit page link. Moreover, the slides allow shadowing when the mouse pointer is over items in a bulleted or ordered list. The color of the shadow can be changed in the .css file selected in the settings as admin.
