Starting in **Tiki12**, some wizards were added to Tiki to help in the initial setup based on configuration templates like "Macros" (**Profiles Wizard**), as well as further site configuration (**Admin Wizard**), to help you while upgrading your tiki site to see what's new (**Changes Wizard**), and to help you as site admin to collect more information from your users if you need it (**Users Wizard**).

- **Profiles Wizard**
- **Admin Wizard**
- **Changes Wizard**
- **User Wizard - Set up the User Details screen**

Click to expand
Congratulations! You now have a working instance of Tiki 18.7svn. You may start using it right away, or you may configure it to better meet your needs, using one of the configuration helpers below.

Tip: Mouse over the icons to know more about the features and preferences that are new for you. Example:

- You may start by applying some of our configuration templates through the Configuration Profiles Wizard. They are like the Macros.
  - Start Configuration Profiles Wizard (Macros)
- Alternatively, you may use the Admin Wizard. This will guide you through the most common preference settings in order to customize your site.
  - Start Admin Wizard
- Or you may use the Upgrade Wizard. This will guide you through the most common new settings and information in order to upgrade your site.
  - Start Upgrade Wizard
