Module random_images

This module is used to display a random image in a wiki page.

Parameters

Preferences required: feature_galleries
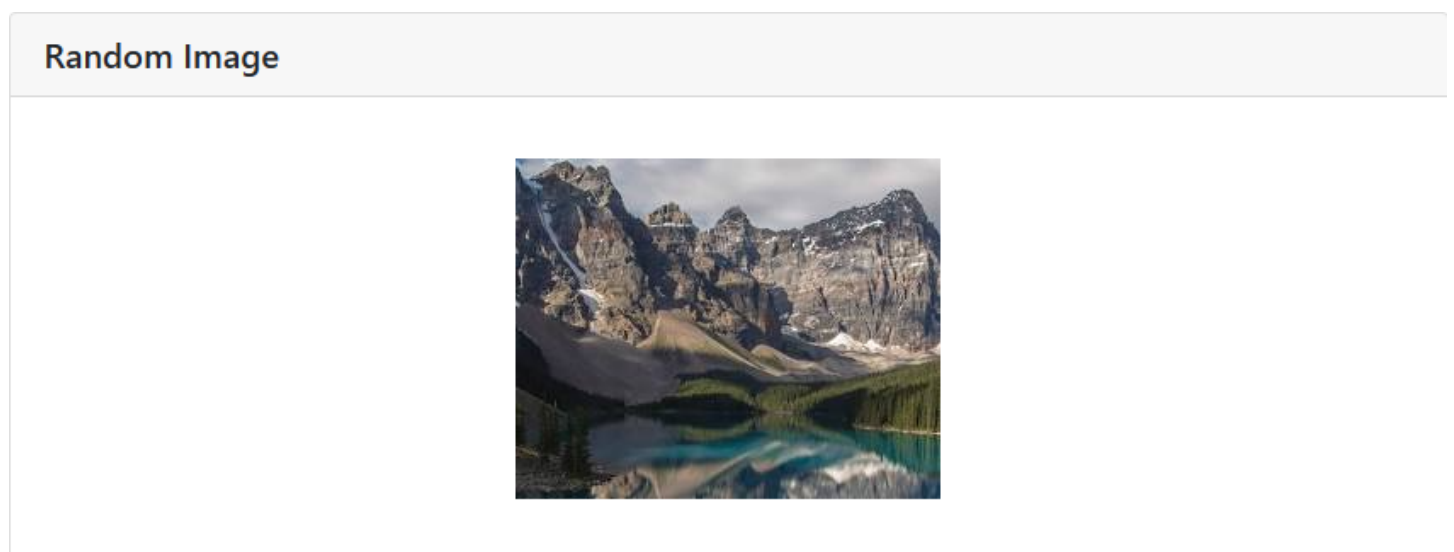

Parameters	Accepted Values	Description	Default	Since
galleryId	int	If set to an image gallery identifier, restricts the chosen images to those in the identified gallery. Example value: 13. Not set by default.		
showlink	word	If set to "n", the image thumbnail does not link to the image. Default: "y"		
showname	word	If set to "y", the name of the image is displayed. Default: "n"		
showdescription	word	If set to "y", the description of the image is displayed. Default: "n"		

Usage

This module can be passed to a Wiki page using the plugin module.
So this code (with no parameters):

    {module module="random_images"}

would produce:

Random Image

And this one (with parameters):

```
{module module="random_images" galleryId="6" showlink="y" showname="y" showdescription="y"}
```

would produce:

Random Image

Colosseum, Rome, Italy

Colosseum, giant amphitheatre built in Rome under the Flavian emperors.
