Header Tracker Field

This type of field inserts a header between tracker items.
This type of field does not allow any input from the users.
The purpose of this field is to allow for a more legible display, by organising the tracker into sections.

The content of the "Name" text field will be displayed as a header.
The content of the "description" text field will be displayed as text below the header.

Note:

- The text is not wiki parsed and the html is not interpreted.
