

# Mod join box

**join box** is a simple "join now" ..

## Install

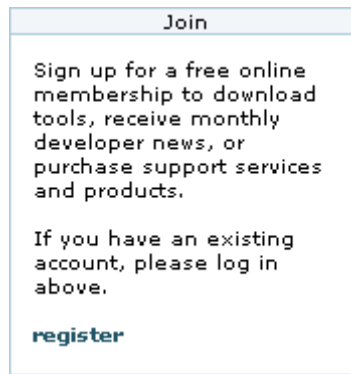

See [Mods Admin](#) for instructions on how to install a Mod.

## Usage

Once installed, you will see it under "Admin > Modules" (**tiki-admin\_modules.php**):

You can assign a this [Module](#) to a lateral column (See [Module Admin](#) page if needed), or you can include it within a wiki page, using the [PluginModule](#).

The assigned module looks like this:

Also, links to frequently used icons are included below and the attached photos here are used throughout the module and plugin pages through use of [PluginAttach](#).

*Since Tiki6 headings from includes are not showing up correctly in the maketoc plugin, so use the below as a workaround:*

```
startinclude1a
```

See these pages for information that applies for all modules:

- [Module](#)--Overall introduction and overview
- [Module Admin](#)--Introduction to the module admin pages for site-wide and individual module settings
  - [Assigning Modules](#)--How to select a module to configure it
  - [Module Settings Interface](#)--Interface for configuring individual module settings
  - [Module Settings Parameters](#)--Explanation of standard parameter settings for modules
  - [Creating Custom Modules](#)--How to create user modules
- [Index of Modules](#)--Links to the documentation of individual modules
- [User Modules](#)--how (if the feature is active) users can choose and place their modules
- [Mods Type Modules](#)--links to modules that are installed as components

```
stopinclude1a
```

```
startinclude2
```

## Related pages
