Module babelfish_links

*Note: Removed in Tiki 14*

Display links to the Yahoo! Babel Fish translation service. Clicking on a link will take you to a page that translates the current page into the language specified by the link.

**Parameters**

There are no parameters needed for this module, however the **feature_babelfish** must be enabled by going to Admin Home->i18n->Babelfish Links (tab) and selecting *Yahoo! Babel Fish Translation URLs*.

**Example**

*This code:*

```plaintext
{module module="babelfish_links" nobox="y"}
```

*Would produce:*
