

Module last_category_objects

This [Module](#) will display the last (most recently updated) objects in in specific [category](#).

Usage

You will see it listed at ""Admin > Modules > Assign new module > Module Name (drop down)" (**tiki-admin_modules.php**).

You can assign a this [Module](#) to a lateral column (See [Module Admin](#) page if needed), or you can include it within a wiki page, using the [PluginModule](#).

The module accepts the following parameters:

Parameter	Required?	Description
type	N	Enter the type of object to display. Valid values include: wiki page — Wiki pages (default) * — All objects
id	Y	The ID of the category

The assigned module looks like this:

***image here** (without surrounding box, since it's not needed for module boxes)*
