Module Share

"Display links to different Social Network function (like, tweet, share) linked to the user Social Network registered account or the App set for the site."

Usage

You can add the module using the Admin Module menu, inserting it in a template or inside the code of Wiki page. The module can be use right away without activating the "old" Share feature in Admin -> Feature.

Module

```
{MODULE(module=value, parameter=value)}{MODULE}
```

Parameters

Links for sharing, reporting etc.

Go to the source code
