This page needs review
Module switch_lang

This Module allows visitors to change the language of the Tiki site interface (menus, module titles, and so on.). The switch_lang2 module also provides a way to change the interface language.

Parameters

Displays a language picker to change the language of the site.

Go to the source code
Preferences required: feature_multilingual, change_language

Parameters	Accepted Values	Description	Default	Since
`mode`	alpha	Changes how the list of languages is displayed. Possible values are droplist, flags and words. Defaults to droplist.		

Usage

You will see it listed at ""Admin > Modules > Assign new module > Module Name (drop down)" (**tiki-admin_modules.php**).

You can assign a this Module to a lateral column (See Module Admin page if needed), or you can include it within a wiki page, using the PluginModule.

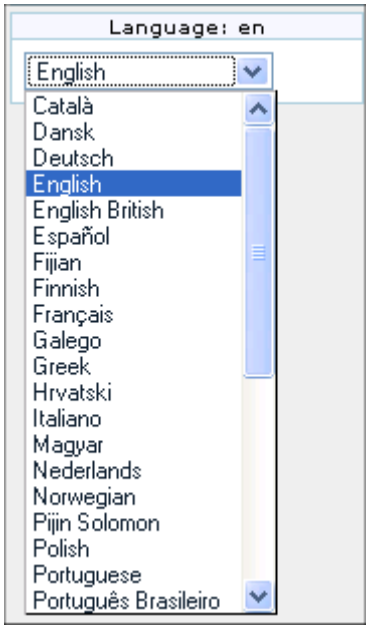

You can also include the module in a wiki page by using:

```
{MODULE(module=>switch_lang, title=TITLE, flip=>y|n, nobox=>y|n, decorations=y|n)}{MODULE}
```

Where:

- title: The title of the module box. The default is **Language**
- flip:
  This option requires that **nobox** = **n**.
- nobox: If **y**, do *not* draw a box around the module. The default is **n** (a box *will* be drawn).
  This option requires that **decorations** = **y**.
- decorations: If **n**, the **flip** and **nobox** options will be ignored. The default is **y**.

The assigned module looks like this:

The list of available languages is determined by the language files currently installed in your **lang** directory:
