

Introduced in [Tiki3](#), this permits to fill out a form to build or edit a plugin. Thus, no need to remember or look up the syntax.

The screenshot shows the 'Members Home Page' interface. At the top, a dark 'Help' menu is visible, with a red circle around the 'Help' text and a red arrow pointing to it. Below the menu, there are two buttons: 'Wiki Help' and 'Plugin Help', with a red circle around the 'Plugin Help' button. The main content area is titled 'Plugins' and contains a section for 'Activate/deactivate plugins'. This section has a 'Filter' dropdown set to 'video', with a red circle around the 'video' text. Below the filter, there are three plugin options: 'Flash Video', 'Vimeo', and 'YouTube'. The 'Vimeo' option is highlighted with a red circle around its icon and text. To the right of the plugins section, there is a 'Members Home Page' sidebar with a 'No Tabs' button and a red circle around the 'No Tabs' button. Below the sidebar, there is a 'Change Highlighter' section with a 'Describe the change you made:' text box and a 'Monitor this page:' checkbox. At the bottom, there are three buttons: 'Preview', 'Save', and 'Cancel Edit'.

Once you click in the icon of the specific plugin (4, in the image above) , a new popup box replaces the previous one, showing the specific parameters for that plugin, and you can optionally also display the params hidden by default under the "Advanced options" section through clicking at the corresponding button with that name:

**Vimeo**

Display a Vimeo video ⓘ

**URL**  
  
Entire URL to the Vimeo video. Example: http://vimeo.com/3319966

**Width**  
  
Width in pixels

**Height**  
  
Height in pixels

**Advanced options** ➔

**Quality**  
  
Quality of the video

**Full screen**  
  
Expand to full screen

**File ID**  
  
Numeric ID of a Vimeo file in a File Gallery (or list separated by commas or []).

**Field ID**  
  
Numeric ID of a Tracker Files field, using Vimeo displayMode.

**Item ID**  
  
Numeric ID of a Tracker item, using Vimeo displayMode.

**Gallery ID**  
  
Gallery ID to upload to.

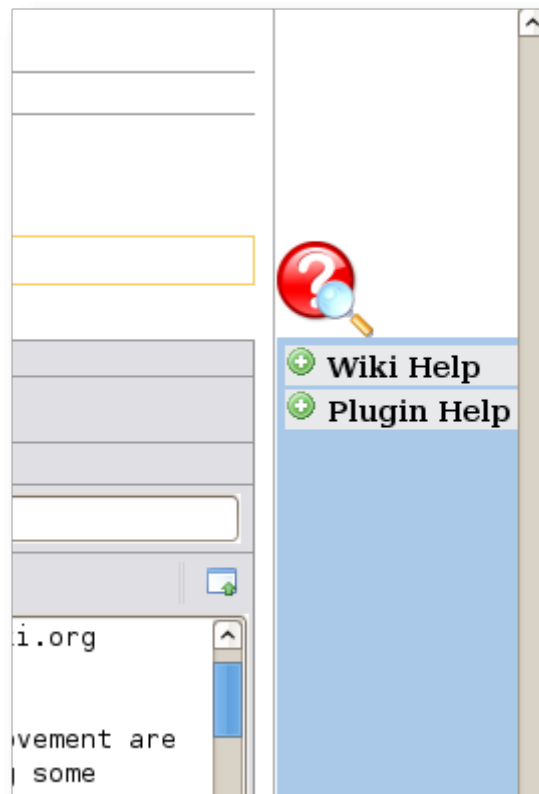

**Close** **Insert**

And when you click at insert, the code is inserted in the wiki page:

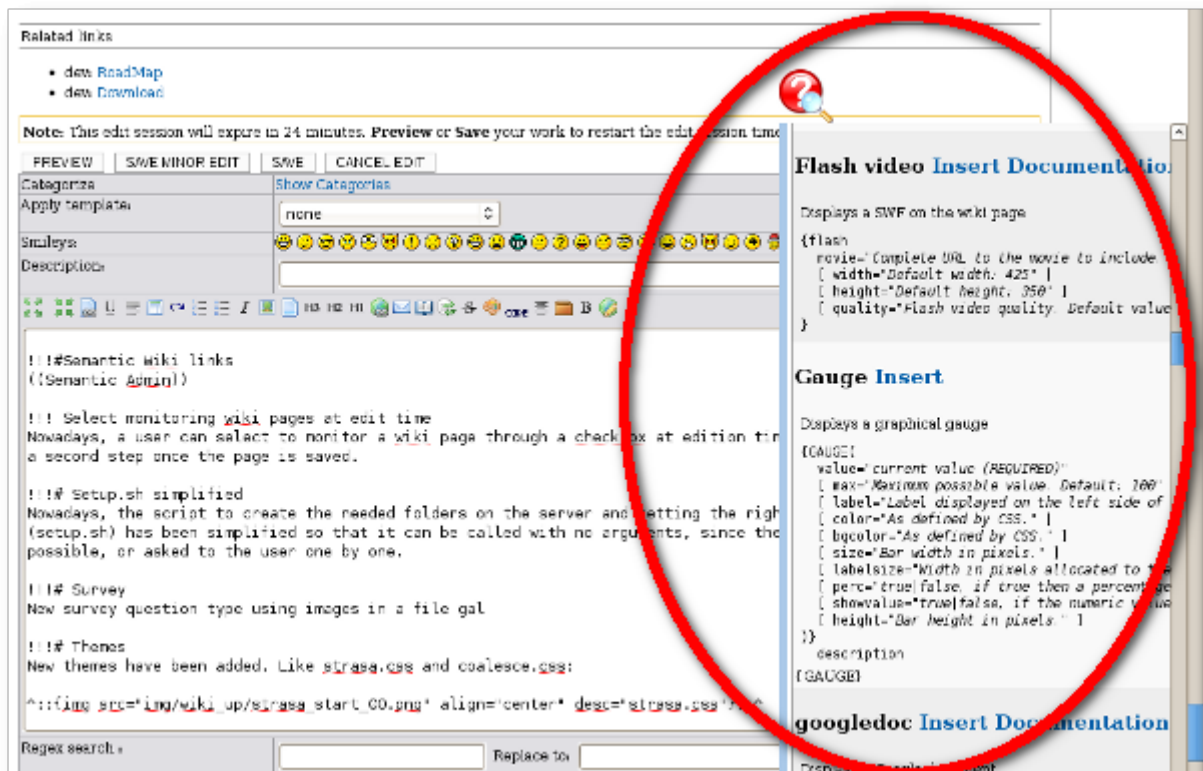

{vimeo url="http://vimeo.com/3319966" width="640" height="480"}

## Wiki Help revamped

The Wiki Help has been revamped so that it is offered on the side as a red balloon with a lens on top. When you click on it, it allows you to select the Wiki help or Plugin help, once you click on any of the green + signs on their left.

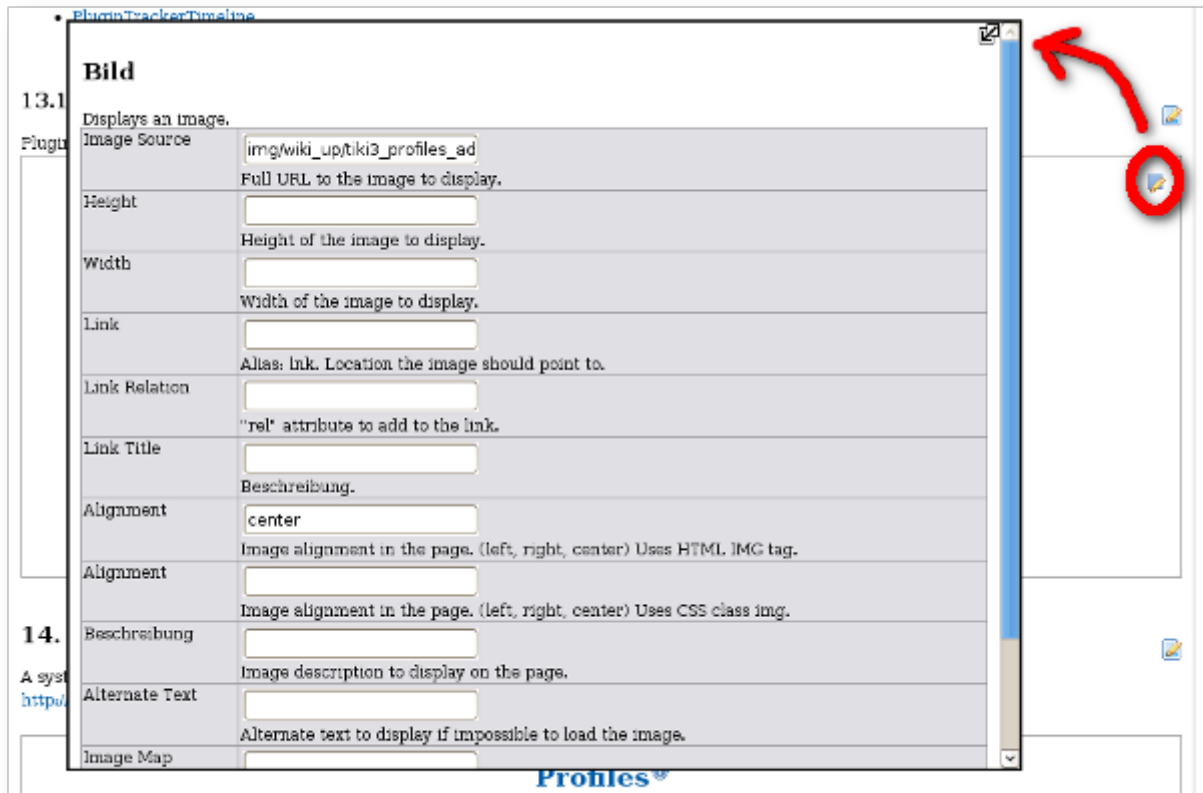

For instance, if you click on the  icon next to Plugin Help, you'll be shown the new edit help, where you can scroll on the side independently of the scroll of the wiki page, and click on the **"Insert"** link next to any plugin title.

Descriptions and possible parameters for plugins are shown in a clearer way.

Later on, once saved, those plugin call can be edited in a quicker and more user friendly way, through the new plugin edit feature:

Alias

- [Plugin Help](#)
- [Plugin Assistant](#)
