

Plugin Carousel

Use this [wiki plugin](#), introduced in [Tiki8](#), to display images in a self-advancing carousel. The plugin uses the infinite carousel jQuery module to display the images of a file gallery. It will produce something similar to http://themes.tiki.org/infinite_carousel. The library can be found at <http://www.catchmyfame.com/catchmyfame-jquery-plugins/>.

Parameters

Introduced in Tiki 8. Required parameters are in **bold**.

[Go to the source code](#)

Preferences required: `wikiplugin_carousel`, `feature_file_galleries`, `feature_jquery_carousel`

Parameters	Accepted Values	Description	Default	Since
