theme	(blank) light dark	Embedded timelines are available in light and dark themes for customization. The light theme is for pages that use a light colored background, while the dark theme is for pages that use a dark colored background. Default is <code>light</code> .	light	13.1

<code>shellbg</code>	(blank) transparent	Transparent Shell Background. Default is theme default		7.0
<code>width</code>	Number of pixels or the word 'auto'.	Width of widget in pixels or 'auto' to fit to width of page. Default is <code>auto</code> .	auto	7.0

Note that Twitter requires that you have an account on Twitter and that you first create your widget there, so you get a widgetId number from Twitter for the widget

Example

Basic syntax

```
{twitter tweet="tikiwiki" widgetId="xxxxxxxxxx" }
```
