

Field	Description
Use a Directory to Store Files	If selected, files that are attached to wiki pages will be stored in the specified directory. The directory can be an absolute path (such as http://www.foo.bar/attachments/) or relative to the Tiki installation directory (such as attachments/).
	Note: The trailing slash (/) is mandatory and <i>must</i> be included in the path.
Wiki Attachments	This area lists all current attachments. You can use this area to change an attachments storage location to either Database to File.
