How to use it

Once the feature "elFinder" is enabled sitewide in the [admin panel](#) for [File Galleries](#), then you will have the option to choose Finder view in each file gallery:

Click to expand

You will also be able to set the new "Finder view" as the default one per file gallery, through the interface to change the "display properties":

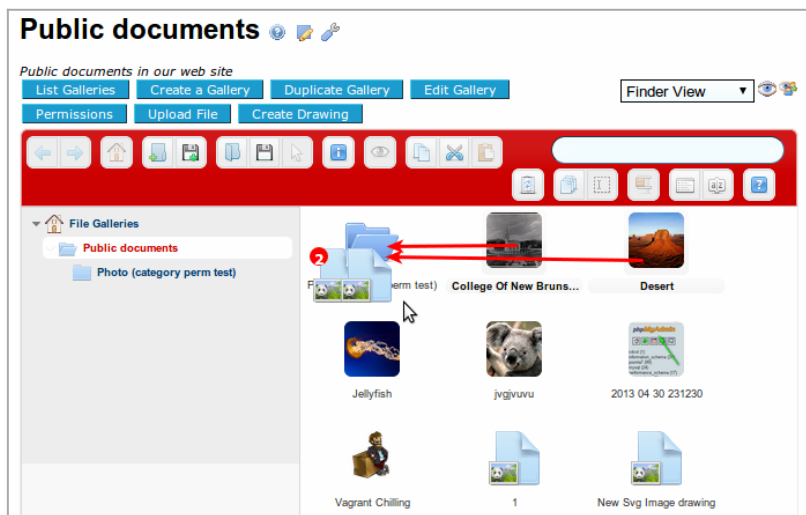

Click to expand

The elFinder view allow you have many contextual actions if you right click with the mouse pointer on a file:

Click to expand

Moreover, you will be able to drag and drop files from one file gallery to others:

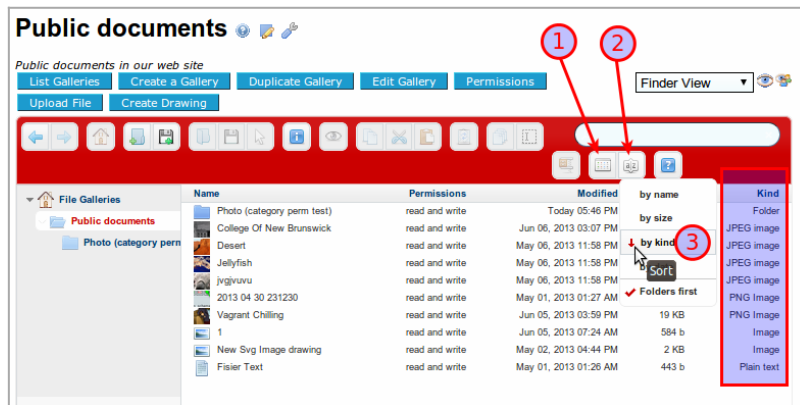

Click to expand

And you will be able also to drag some files from your local desktop in your own computer, and drop them inside the file gallery of your choice:

Click to expand

Last, you will be able to display files in a detailed view, sort them by many criteria, like by file types:

Click to expand
