From the "I-wasn't-on-strike-just-really-busy-department":

Sorry I missed last week, but let's get right back on track. Thanks to marclaporte for moving d.tw.o to a shiny new server, and thanks to mlpvolt for his work on trackers. Thanks also to Sylvie for the work on plugin docs. This week's focus is on "Things That Remain Blank"

Things That Remain Blank

This week I'm highlighting four areas that are really untouched, and asking for one report. Here's the list:

1. The section is quit bare, except for a few pointers to tw.o. Please move the content to the docs site.
2. The section is in need of help.
3. The section has a description of the feature, but needs to have user and admin pages built
4. The section has no data on the docs wiki
5. Finally, I'm looking for a report. I'd like to build a report that shows the status of each page by structure. The goal is to show the status of the different structures so that we can pinpoint the areas where we need work. Then we no longer need to keep a manual documentation status page. If you have an idea of how we could accomplish this, please create a page and show us what we need to do.

Have a great week! Keep Writing! Dave
