

Action Calendar

The Action calendar is a module which shows system events in a chronological order. Also known as the Tools Calendar

Please add this page to the refactor list. The feature has changed substantially and the graphics no longer show what the user will experience. Especially the 2nd one.

examples of actions:

creation or edit of a wiki page

upload of a file including date and time, user, and description.

Requires:

permission tiki_p_view_tiki_calendar.
Activate feature in Admin>Calendar

Event Listing

Once you have the calendar active you can click on a day to see the listing of events for that day. (sorry for the slightly chopped up screenshot)

more info see: [Calendar](#)

Alias

- Tools Calendars
- Tool Calendar
