

# Action Calendar

The Action calendar is a module which shows system events in a chronological order. Also known as the Tools Calendar

---

Please add this page to the refactor list. The feature has changed substantially and the graphics no longer show what the user will experience. Especially the 2nd one.

---

examples of actions:

creation or edit of a wiki page

upload of a file including date and time, user, and description.

# Requires:

permission tiki\_p\_view\_tiki\_calendar.  
Activate feature in Admin>Calendar

# Event Listing

Once you have the calendar active you can click on a day to see the listing of events for that day. (sorry for the slightly chopped up screenshot)
