

Action Calendar

The Action [calendar](#) is a [module](#) which shows system events in a chronological order. Also known as the Tools Calendar

Please add this page to the [refactor](#) list. The feature has changed substantially and the graphics no longer show what the user will experience. Especially the 2nd one.

Tiki Calendar						
November						
S	M	T	W	T	F	S
25	26	27	28	29	30	31
01	02	03	04	05	06	07
08	09	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	01	02	03	04	05

examples of actions:

creation or edit of a wiki page

upload of a file including date and time, user, and description.

REQUIRES:

permission `tiki_p_view_tiki_calendar`.

Activate feature in Admin>Calendar

EVENT LISTING

Once you have the calendar active you can click on a day to see the listing of events for that day. (sorry for the slightly chopped up screenshot)

The screenshot shows the 'Tiki Action Calendar' interface. At the top, there's a title 'Tiki Action Calendar' and three buttons: 'Do not group by item', 'Filter', and 'List View'. Below the title are navigation icons for different views (Day, Week, Month) and a 'Focus:' section showing 'Tuesday 11 of November, 2008'. A date navigation bar shows 'November 11' with left and right arrows. The main content is a table with two columns: 'Hours' and 'Events'. The 'Hours' column lists times from 15h to 23h. The 'Events' column shows a list of updates to wiki pages: '16:29 : wiki page : [Learning](#) - 16:29 : Updated by Joanne', '16:25 : wiki page : [Teaching \(x2\)](#) - 16:25 : Updated by Joanne,', and '- 16:26 : Updated by Joanne'.
