

# Auto TOC

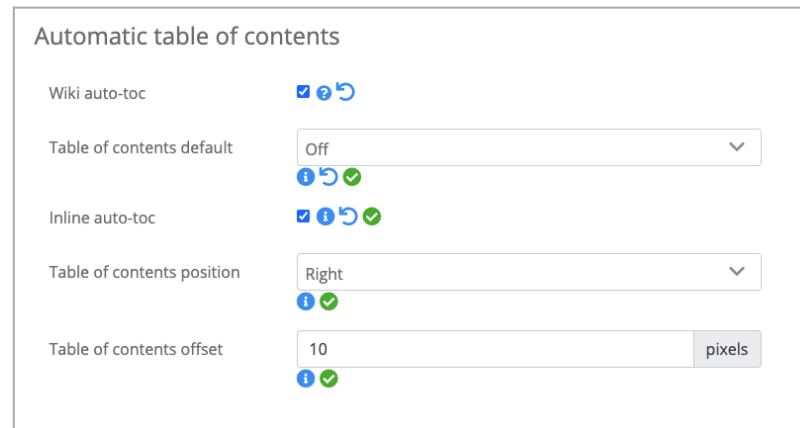

Starting in Tiki12, a new feature to allow adding an automatic Table Of Contents ("Auto TOC") has been added to the Wiki. And starting in Tiki23, you can have more options via PluginAutoTOC

## Enable it

Auto-toc can be enabled as admin through the admin panel in "**Admin home > Wiki > General Preferences (Tab) > Section *Automatic table of contents (Page Display before Tiki 15) > Wiki auto-toc***"

You can also choose:

- the default for each page (which can be overridden per page)
- If the top TOC should be inserted into the page content or not
- Position left or right
- Offset from the top

The screenshot shows the 'Automatic table of contents' configuration panel. It contains the following settings:

Setting	Value	Icons
Wiki auto-toc	<input checked="" type="checkbox"/>	Info, Refresh, Checkmark
Table of contents default	Off	Info, Refresh, Checkmark
Inline auto-toc	<input checked="" type="checkbox"/>	Info, Refresh, Checkmark
Table of contents position	Right	Info, Checkmark
Table of contents offset	10 pixels	Info, Checkmark

Click to expand

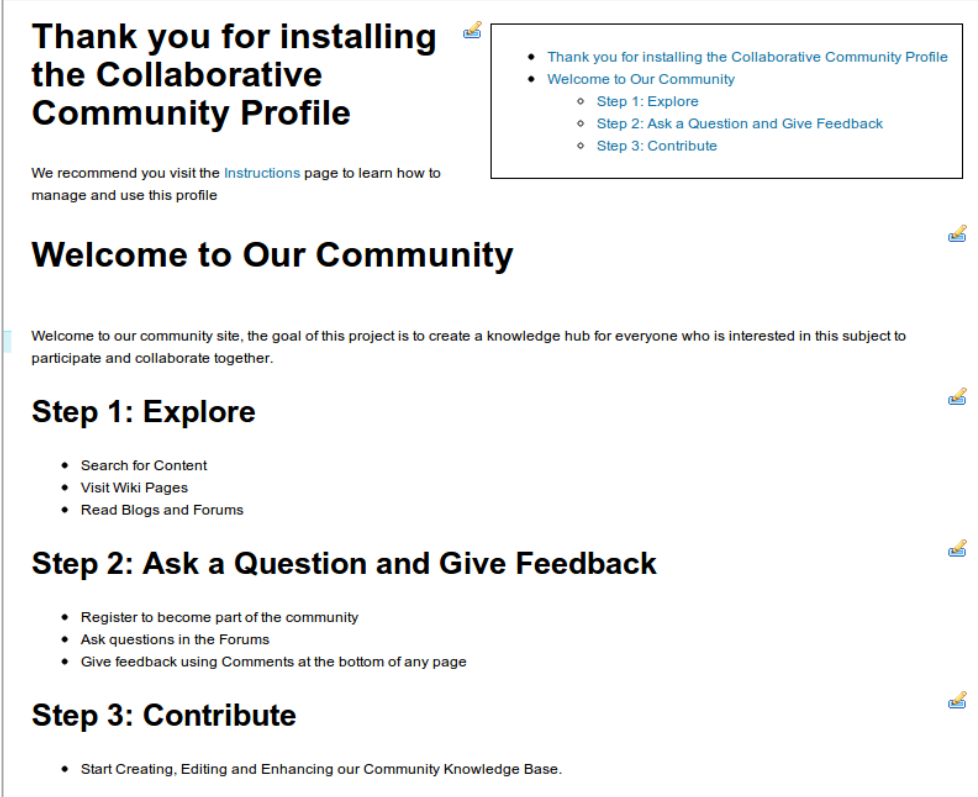

Auto TOC is not included in the print view of the page.

# Usage

Auto-toc will add the TOC in two places.

1. A static TOC located at the top of the page. The TOC is inserted into the page content at runtime.

• Example:

The screenshot shows a web page for a collaborative community profile. At the top, there is a heading "Thank you for installing the Collaborative Community Profile" followed by a sub-heading "Welcome to Our Community". Below this, there are three main sections: "Step 1: Explore", "Step 2: Ask a Question and Give Feedback", and "Step 3: Contribute". Each section contains a list of actions. A floating TOC is visible in the top right corner of the page content, listing the main sections and their sub-sections.

**Thank you for installing the Collaborative Community Profile**

We recommend you visit the [Instructions](#) page to learn how to manage and use this profile

**Welcome to Our Community**

Welcome to our community site, the goal of this project is to create a knowledge hub for everyone who is interested in this subject to participate and collaborate together.

**Step 1: Explore**

- Search for Content
- Visit Wiki Pages
- Read Blogs and Forums

**Step 2: Ask a Question and Give Feedback**

- Register to become part of the community
- Ask questions in the Forums
- Give feedback using Comments at the bottom of any page

**Step 3: Contribute**

- Start Creating, Editing and Enhancing our Community Knowledge Base.

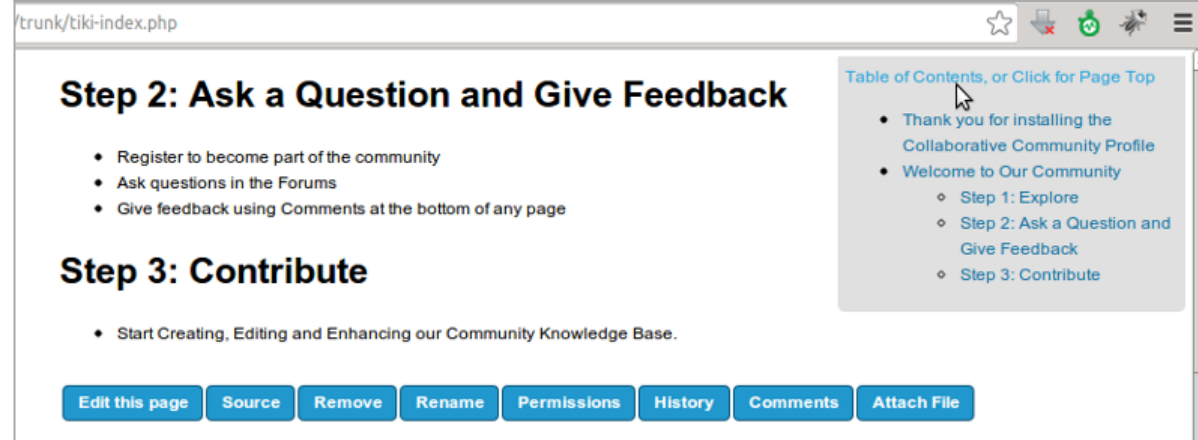

**Table of Contents (TOC):**

- Thank you for installing the Collaborative Community Profile
- Welcome to Our Community
  - Step 1: Explore
  - Step 2: Ask a Question and Give Feedback
  - Step 3: Contribute

Click to expand

2. A floating TOC, located at the top of the browser window. This TOC is only visible when you scroll down past the top of the page.

• Example:

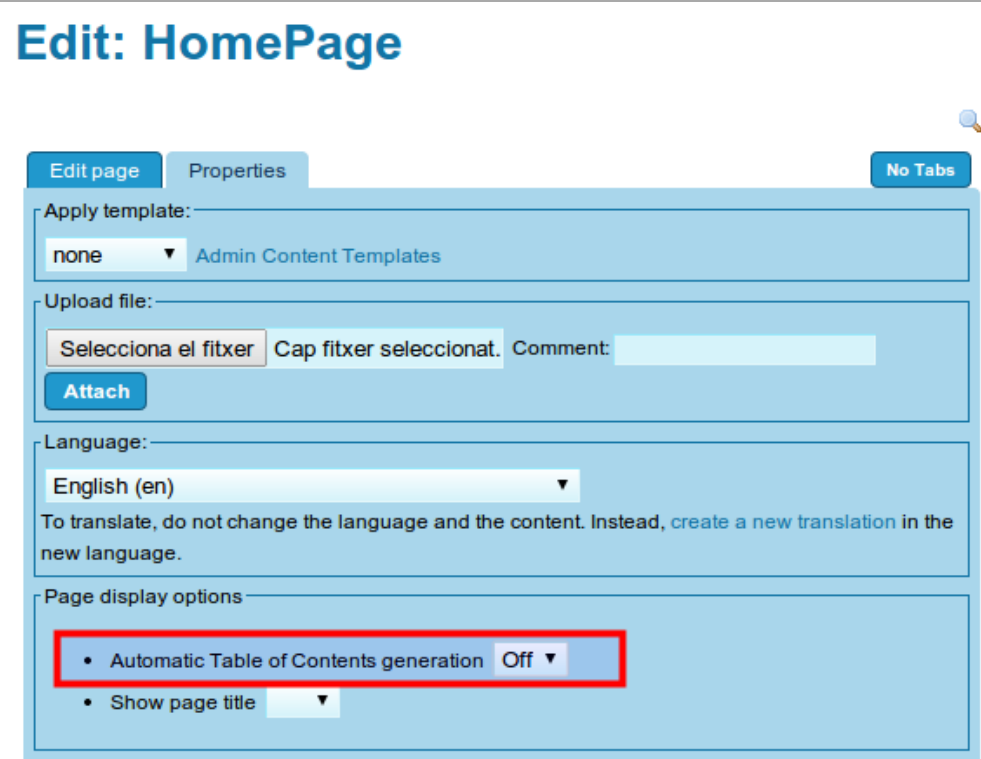

Click to expand

Additionally, you can also see it in action in the screencast below.

```
{flash type="url" movie="https://dev.tiki.org/display372" width="550" height="500"}
```

# Disable it in some pages

You can disable it in some wiki pages. In order to do so, edit the page, go to the properties tab, and set "**Page display options > Automatic Table of Contents generation**" to "**off**":

Click to expand
