

In Tiki 7 we started to move from GoogleMaps (GMap) to OpenStreetMaps, respectively OpenLayers, which offers a GoogleMap layer. Latest since Tiki 13 we are using only OpenLayer (OpenStreetMap) and step b step remove(d) ll code from old MaServer and GMap.

Please visit the following pages, if you want to use Maps in Tiki:

[OpenLayers](#), [Maps](#), [PluginMaps](#)

Please mind: This page stays here only for historic reasons and to guide to [Tiki's OpenLayers page](#)

Part of this page should have been [merged](#) with [Google Maps](#)

Google Maps Admin

Google Maps icon

[Google Map](#) feature can be enabled through "**Admin home > Features > Google Map**".

It can be initially set up for the whole Tiki through "**Admin home > Google Maps**" ([tiki-admin.php?page=gmap](#)).

First time, it will recognize that you don't have any Google Map key for your specific web site domain (required), and it will suggest you to request one at:

<http://www.google.com/apis/maps/signup.html>

One you complete the process in the Google site side, yuo can come copy the generated key to the correspongging field in **tiki-admin.php?page=gmap**. Once done, you will be able to see your map below, like this:

Administration: Google Maps

Google Maps

Google Map setup

You need to request a Google Maps Key for this web site. You can easily generate a key for your domain at : <http://www.google.com/apis/maps/signup.html>

Google Map Key:

Default x for map center:

Default y from map center:

Default zoom level:
