

Google Maps Admin

Google Maps icon

Google Map feature can be enabled through "**Admin home > Features > Google Map**".

It can be initially set up for the whole Tiki through "**Admin home > Google Maps**" (**tiki-admin.php?page=gmap**).

First time, it will recognize that you don't have any Google Map key for your specific web site domain (required), and it

will suggest you to request one at:

<http://www.google.com/apis/maps/signup.html>

Once you complete the process in the Google site side, you can come copy the generated key to the corresponding field in **tiki-admin.php?page=gmap**. Once done, you will be able to see your map below, like this:

http://www.google.com/apis/maps/signup.html'. Below this is a form with the following fields: 'Google Map Key:' with a text input containing 'ABQIAAAAP1F0h8EY1vY3geQ1yo-Q8U5AR_ABFFXCCCAw-Jak174231[isLr]171P8K138887cp1EP0782gms40a2'; 'Default x for map center:' with a text input containing '1.0900497436523438'; 'Default y from map center:' with a text input containing '41.52682878717628'; and 'Default zoom level:' with a dropdown menu set to '12'. A 'Save' button is located at the bottom of the form. Below the form is a map showing a region with labels for 'Sant Marti de Maldà', 'Sant Marti de Riucorb', 'Nalec', 'Ciutadilla', 'Maldà', and 'Rocafort de Vallbona'. The map has navigation controls on the left and style buttons ('Mapa', 'Satèl·lit', 'Híbrid') at the top right."/>
