Instructions

This profile makes minor changes to your site layout and hides the top module zone when you scroll down the page.

Changes by this profile
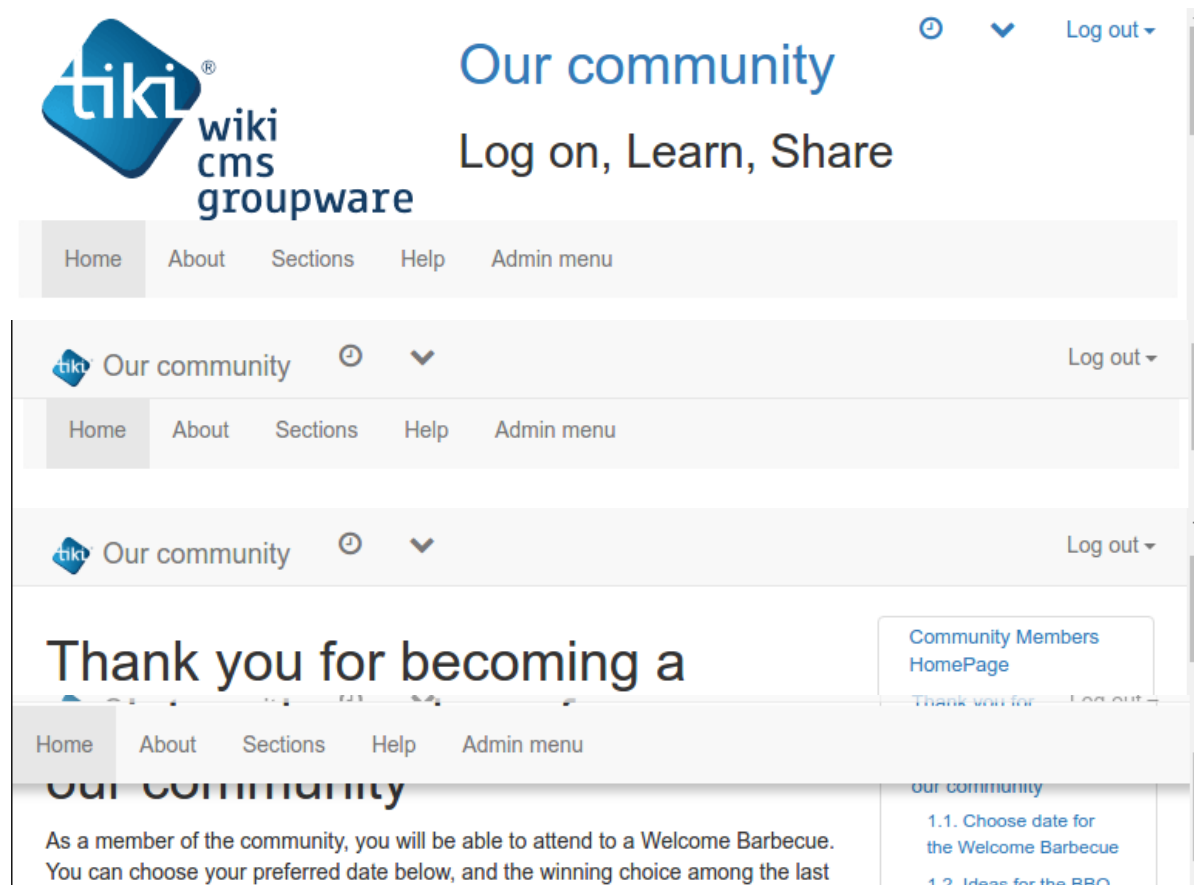

Site layout (in **Control Panels > Look and Feel > General layout > Site layout**) will be set to `Classic Bootstrap (fixed top navbar)`
Preference Site logo (feature_sitelogo) will be disabled so that logos and site title are not shown twice
After scrolling down a bit, the fixed top bar will disappear and the topbar zone (if any) will become sticky. This is made through the addition of a module with some javascript.
This profile is best demonstrated after applying the `Collaborative Community` profile which include site title and topbar module with menus.

Community Members HomePage

Thank you for becoming a registered member of our community

As a member of the community, you will be able to attend to a Welcome Barbecue. You can choose your preferred date below, and the winning choice among the last new members will be the date of the event.

In addition, you can propose activities for the Community along the year, lasting more than one day if needed (add a date, and drag & extend events in the full calendar shown below). See the Common Agenda below. You can also display the activities as a resource view.
