---

## Option

Fetch page content from incoming feeds

Tracker for articles

Tracker ID of tracker for articles

---

## **Description**

Page content from the source will be fetched before sending the content to the generators.

Have a tracker to supplement article information

A tracker for articles must contain an "Articles" field

**Default**

Disabled

Disabled

None

# Option

Index article info in tracker item

---

## **Description**

Sets whether the article info should be indexed in the tracker item. This automatically sets the article field to read-only and sets up categorization synchronization between articles and tracker items.

---

**Default**

Disabled

*Unable to load the jQuery Sortable Tables feature.*
