

Live Support Details

On the live support admin screen ("**tiki-live_support_admin.php**"), there are some other options. One of them is "Generate HTML" ("**tiki-live_support_admin.php?show_html**"), which leads you a page where you can copy some html code to paste it in any html page you wish to produce the live support icon:

[Open operator console](#) [Open client window](#) [Generate HTML](#) [Transcripts](#)

Generated HTML code:

Copy-paste the following XHTML snippet in the pages where you want to provide live support.

HTML code

```
<a href="#"
onclick="javascript:window.open('tiki-live_support_client.ph
border="0"
src="tiki-live_support_server.php?operators_online"
alt="image" /></a>
```

result

Moreover, there is the option "**Transcripts**", which can be filtered by operator. In this example, we filtered the transcripts for operator "admin" ("**tiki-live_support_transcripts.php?filter_operator=admin**):

Support chat transcripts

[back to admin](#)

Support requests

find username operator

started	username	reason	operator	msgs
Thu 05 of Jul, 2007 [19:29]	Professor	Can I see reports of individual contributions of my students while working in groups?	admin	3

If you click on the number at the column "**msgs**", you can view the messages of that support request process (3, in this example):

Transcript

19:30	(admin) In Tiki 1.9.x there is no easy way to do that (no place of single report with all your students contributions, on a students basis)
20:52	<i>Professor has left the chat</i>
20:53	<i>admin has left the chat</i>
